PERSIA APPEALS TO WORLD LEAGUE

Starts Ore Search for the Raw Materials for B. C. Steel Mills

Minister of Mines Sends Out Notable Engineer With Party of Experts to Investigate Iron Resources in Clinton District.

With instructions to carry out a thorough inspection of the hematite and limonite ore deposits of the Clinton Mining Division, in the Whitewater River region, and to establish as far as is possible in one season's work the tonnage available of this mineral, P. J. Crossland, of Vancouver, B.C., a British Columbia consulting mining engineer of prominence, will start for the interior next week accompanied by a party of competent mining men.

Mr. Crossland has received his commission from Hon. Wm. Sloan, Minister of Mines, who explains that the purpose is to secure as full and as accurate information as investigation can furnish regarding this important mineral area.

Mr. Sloan referred to the iron ore resources of this section in the course of an address delivered at the last session of the Provincial Legislature on the possibility of private enterprise or the Government giving consideration to the taking of initial steps towards the establishment of an iron and steel industry in the province. He spoke of a report received from Wm. M. Brewer, Government mining engineer, who made an examination of the deposits last year and who was favorably impressed, figuring, from an examination, necessarily superficial because of the limited time at his disposal, that there was a considerable quantity of iron ore of good quality, eminently suitable for fluxing with the magnetite ores of the coast in the production of pig iron by blast furnace, and so situated as to be easily mined. Mr. Sloan then stated that it was the intention to have the district well explored, and the results of the exploration to be made public as soon as possible.

Crossland Eminent Qualified. To mining engineers and those identified with that business in the Province the selection of Mr. Crossland for this important duty will appear as being based on good judgment. After his graduation he was employed on geological work for the Government of Rhodesia, later was associated with the Bayfield Consolidated Mines, served through the South African war, and coming to Canada in 1905, became connected with mining operations in various fields of the Province of Ontario. Mr. Crossland's professional experience on this continent has been varied. For some years he has practiced in this Province with headquarters at Vancouver and, as it happens is familiar with the Taseko Lake littoral, on the minerals of which he has prepared reports. He is also president of the Imperial Veterans of Canada in that city, he (Concluded on page 4.)

EMPIRE DAY.

Seattle, May 21.—The Overseas Club will celebrate Empire Day, Monday, May 24, at the Moose Temple. Proceeds are to be used for local relief work among returned men. There will be a splendid entertainment and other features and refreshments.

PEACE RESOLUTION SENT TO PRESIDENT

Measure Passed by United States Senate Adopted Today by House

Washington, May 21.—The Republican peace resolution was adopted finally today by the House. It now goes to the President.

The House majority accepted the Senate's substitute for the original House measure, Democrats vainly opposing it.

The vote approving the resolution was announced as 238 to 139, which was taken to indicate that a veto by the President could not be overridden.

Twenty Democrats joined with the Republicans in adopting the resolution, while two Republicans, Representatives Kelley, Michigan, and Fuller, Massachusetts, voted against it.

Martial Law in Madrid as Result of Disorders

Madrid, May 21.—(Associated Press)—Martial law has been formally proclaimed here as a result of the bread disturbances. A statement chronicling disturbances during which rioters pillaged shops, especially those of bakers and grocers. Even some private houses were attacked.

The Minister of the Interior, in a statement, described the labor movement throughout Spain as not distinctly Socialistic but of a syndicalist nature.

ONTARIO SCHOOL BOARDS TO PAY FOR OPERATIONS

Toronto, May 21.—A bill was passed in the Ontario Legislature today which provides for minor operations on school children at the expense of the school boards, with the slight amendment that parents must be given two weeks' notice of the intention of operating.

Troops May Be Used to Unload Ships at Dublin

Dublin, May 21.—It is expected that the Government will be forced to use troops to unload munitions from ships arriving here and that the English labor unions will declare sympathetic strikes.

One steamship loaded with munitions has arrived in Dublin. The secretary of the Transport Workers' Union said the dockers had refused to unload her.

London, May 21.—The Dublin correspondent of the Exchange Telegraph Company says that in consequence of the English dockers having telegraphed that they had refused to load war munitions for Ireland, and the Irish Transport Workers' Union having decided not to unload munitions when they reach Dublin, the military officer in command at the port interviewed the harbor master yesterday and later went to headquarters and consulted with his superiors on the situation.

GERMAN TROOPS AT PLEBISCITE AREA

Armed Men Reported Sent to Borders of Silesian Voting Area

Warsaw, May 20.—Via London, May 21.—(Associated Press)—Information indicating that some elements in Germany are determined to help the Russian Bolsheviks continues to be received here. The latest report is regarding Upper Silesia, where German armed forces have been assembling on the borders of the plebiscite area. Newspapers here today published dispatches stating that 4,000 security guards had arrived in Upper Silesia by special train.

For weeks, it was declared, Germans had been hauling ammunition into Silesia, hiding it beneath beet in railroad cars.

SUGAR INQUIRY IN EAST NEXT WEEK

Court Ruling on Commerce Board; Act May Be Amended

Ottawa, May 21.—(Canadian Press)—The sugar inquiry which will mark the first public inquiry held by the Board of Commerce for some time. The Board has invited refiners, wholesalers, retailers and consumers to give evidence. For some time, the Board has been accumulating information on the marketing of sugar in every section of the Dominion and is in possession of most exhaustive details on the sugar situation.

Court Ruling.

The decision of the Supreme Court in the Board of Commerce case probably will come down Tuesday morning. It affirms the jurisdiction of the Board as a profit-fixing tribunal, it is expected that amendments to the Combines and Fair Prices Act will be introduced in Parliament. Representations have been made to the Prime Minister by business men, notably the Retail Merchants' Association, that the Act should be amended to define more clearly the scope of the Board of Commerce.

SWEDEN TRADING WITH BOLSHEVIKI

Copenhagen, May 21.—Contracts amounting to 100,000,000 Swedish kroners have been negotiated between Sweden and Bolshevik Russia, according to a statement to the press. The chairman of the necessary conversations with Chairman Krassin, Bolshevik Commissary on Trade Relations.

CABINET ASKED TO RELEASE STRIKERS

Petitions For Winnipeg Men About to Be Considered at Ottawa

Ottawa, May 21.—(Canadian Press)—Petitions for the release of the Winnipeg strike leaders will be before the Cabinet within the next few days.

The cases are now before Hon. Hugh Guthrie, Solicitor-General, for consideration, but ultimate decision of course will lie with the Cabinet.

It is generally felt here that chances for the exercise of clemency would have been greater had the endeavor to secure it been otherwise than by way of threats.

Strike Calls Are Cancelled in France by Labor Federation

Paris, May 21.—(Havas)—The General Federation of Labor decided today to call off the strikes it had ordered in support of the railwaymen's walkout. The decision for the resumption of work was reached by a vote of 86 to 11.

The motion provided for resumption of work to-morrow.

FOREIGN POLICY WAS UNDER ATTACK

Opposition Members in British Commons Assailed the Government's Course

Lord Robert Cecil Pleaded World League Be Made Real

BRUSILOFF LEADS AGAINST POLES

General Reported to Be Commanding Bolshevik Troops in Offensive

Warsaw, May 21.—(Associated Press)—General Alexis A. Brusiloff, former Commander-in-Chief of Russian armies, is understood to have assumed command of the Bolshevik offensive against Poland.

In Polish military circles it is said the Soviet attack is designed to overrun Lithuania and extend the Bolshevik front westward to East Prussia.

Military authorities here declare huge stores of munitions and supplies have arrived in East Prussia in anticipation of a break in the Polish front before the Bolshevik offensive.

Fighting continues along the northern sectors of the front, but all Soviet attacks have been repulsed along the upper reaches of the Beresina River, according to the announcement.

BRITISHERS HOPING FOR LOWER PRICES

Decline in United States Interests People in the Old Country

London, May 21.—Cable reports of a drop in prices in the United States are featured in newspapers here and are being read with great interest, as they excite the hope that conditions across the Atlantic may be reflected in Britain. Some writers on economics, however, hold out little hope that this will be the result, maintaining the new conditions in the United States are likely to have a contrary effect here, but hope persists and is supported by some rather pointed indications that there was a decline in trading during April compared with March. This decline, although small, is regarded as significant because it was the first for more than a year.

J. L. BECKWITH IS IN MONTREAL

Montreal, May 21.—Among those attending the meetings of the "supreme council" of the Royal Arcanum here for the next seven days is J. L. Beckwith, of Victoria, B.C., who holds the distinction of being the only international delegate. He is attending the convention as representative of British Columbia and Washington State.

Mr. Beckwith formerly was Mayor of Victoria.

Demons to Speed for World's Record Here; \$1,000 Cheque Missing

Efforts to shatter the world's automobile speed record for a half-mile dirt track will be made at the Willows to-morrow afternoon by the twelve fastest racing cars piloted by the most demonaical drivers that have ever gathered in the Pacific Northwest. The present record is 1.04 minutes.

The track has been soaked with water and rolled steadily for the last six days so that it will be firm and not plough. A firm track is necessary if world records are to be set.

Dust has been conquered at the track. Clouds of dust torn up by the terrific speed of the cars would inconvenience the crowds of spectators and might result in the drivers and their machines murdering one another.

The thousands of spectators at the Willows are to be confined to the grandstands exclusively.

First Aid Outfit Ready.

Dr. J. F. Grant, in charge of a first aid staff and ambulance, will move his headquarters to the track early to-morrow. He will administer stimulants and give immediate assistance.

CLASHES DUE TO STRIKE IN HAMBURG CAUSED DEATHS

Berlin, May 21.—The strike in the Hamburg shipyards has been led, it is announced in advices from Hamburg to-day. Before the settlement, collisions occurred yesterday between strikers and security police as a result of which three persons were killed and ten wounded.

TAXES CREATING PROBLEMS DAILY

Amendments in Commons Needed to Straighten Out Difficulties in Canada

Ottawa, May 21.—(Canadian Press)—New problems are daily arising in the administration of the new luxury taxes.

An important point raised is that advanced by a Canadian manufacturer. Before the budget, he had contracts to clear a large order for goods now subject to an additional excise duty of ten per cent. The selling price of the goods is determined in the contract. The budget resolutions provide that in this case, the excise duty is payable by the manufacturer. If the manufacturer contends, he pays the duty, not only will his profit be wiped out, but he will have to fill the order at a loss.

This, however, is but one of a number of cases submitted to the Department. It is probable that when the resolutions are in committee there will be amendments made to correct any anomaly existing.

RETAILERS WILL COLLECT

Ottawa, May 21.—Stormy scenes at the meeting of the German Assembly yesterday arose over the discussion of the employment by the French of black troops in the occupied area. Adolf Koester, referring to "acts of savage brutality" by these troops toward women and children, said only a tithe of these horrors were known. Protests from Great Britain, the United States, Sweden and Norway had made as little impression on the French Government as the German protests, and Germany intended to appeal to the League of Nations, he said.

DATE IS CHOSEN FOR PLEBISCITE

But Ambassadors' Council Has Not Yet Announced Allenstein-Event

Paris, May 21.—The Council of Ambassadors at to-day's session fixed the date for the holding of the plebiscite in the Allenstein and Marienwerder districts for determining the boundaries of Poland with regard to East and West Prussia. The Council, however, decided not to make the date public until the measures to be taken for organizing the control of the plebiscite had been worked out, and the advisability of increasing the Allied forces there had been considered with Marshal Foch, the Allied Commander-in-Chief.

The taking of these precautions is explained as being due to the more or less violent friction which had developed in the plebiscite areas between the different races.

The Council also approved a provisional convention between the Poles and the free city of Danzig regarding the administration of that port.

The Ambassadors probably will take cognizance of the final decision of the Hungarians regarding the peace treaty to-morrow and fix the date and place for signing the treaty. They may ask Hungary to send for the signature of a person of higher importance than M. Prasnowsky, one of the secretaries of the Hungarian delegation, which brought the reply from Budapest this morning.

ITALIAN CABINET

Scialoja Is His Foreign Minister and Bonomi His Minister of War

London, May 21.—Premier Francesco Sclafani has formed his new Italian Cabinet with the support of the Roman Catholics, according to a Paris dispatch to the London Times. It is composed as follows:

Premier and Minister of the Interior—Francesco Sclafani. Foreign Minister—Vittorio Scialoja. Minister of War—Signor Bonomi. Marine—Admiral Scelchi. Public Works—Signor Nitti. Treasury—Signor Schanzer. Finance—Signor Alessio.

MINING CLAIMS IN POINT GREY

Ore on J. Adair's Claims Gives Over \$1,000 Gold a Ton

Point Grey, B. C., May 21.—Samples of ore taken from mining claims recently staking in Point Grey by James Adair, a veteran prospector of Australia, show values in gold exceeding \$1,000 a ton, according to an assay report. Adair has three claims in this district, the Lucky Strike, Lion and Mascot, all showing silver, copper and iron and aluminum.

When he proceeded to record his claims he encountered difficulties. The Provincial Government has not officially recognized his mineral rights. He has announced his intention to press for acknowledgment, which he contends is due him under provisions of the Mineral Act.

RAILROADS IN U. S. TO BUY EQUIPMENT

Washington, May 21.—A loan of at least \$125,000,000 out of the \$300,000,000 revolving fund to enable railroads to purchase equipment required to meet transportation needs of the public was adopted to-day by the Interstate Commerce Commission.

Persia Asks League to Give Protection Against Bolsheviki

On Behalf of His Country, Foreign Minister, Who Is In Paris, Requests New World League to Put an End to Latest Bolshevik Aggression.

London, May 21.—Persia has appealed to the League of Nations to protect her against Bolshevik aggression. The appeal, which follows the landing of Bolshevik forces on Persian soil from the Caspian Sea, was made through the Persian Foreign Minister, who is in Paris.

The appeal alludes to the presence in Enzeli harbor of warships belonging to the anti-Bolshevik forces formerly operated under General Denikine, and maintains that Persia acted within her rights as a neutral with regard to these vessels. It points out that she declined to allow these ships to enter the harbor until she was assured she would not be hampered in disarming and interning them.

STORMY SCENES IN GERMAN ASSEMBLY

Deputies Were Discussing Black Troops in Occupied Area

Berlin, May 21.—Stormy scenes at the meeting of the German Assembly yesterday arose over the discussion of the employment by the French of black troops in the occupied area. Adolf Koester, referring to "acts of savage brutality" by these troops toward women and children, said only a tithe of these horrors were known. Protests from Great Britain, the United States, Sweden and Norway had made as little impression on the French Government as the German protests, and Germany intended to appeal to the League of Nations, he said.

HUNGARY PEACE TREATY TO BE SIGNED IN VERSAILLES

Paris, May 21.—The Temps says to-day that the Hungarian peace treaty will be signed in Versailles on a date to be fixed by the French Foreign Minister.

CHARGES OF MURDER LAID IN VANCOUVER

Vancouver, May 21.—Michael Molyneux and Joseph Scanlon stand charged with murder, and Donald McGregor is held as a material witness as a result of the inquest on the body of Daniel Morison, brutally kicked to death at a local hotel last Monday.

GERMAN DELEGATES WILL MAKE STATEMENTS AT SPA

London, May 21.—The Spa conference will be a consultative gathering, to the extent that the German delegates are expected to make a declaration of the amount of indemnity Germany is prepared to pay, according to a statement made by Rt. Hon. Andrew Bonar Law in the Commons to-day.

It had been expected that Mr. Lloyd George would attend the session, the last before adjournment for the Whitsuntide recess, but he did not, and in his absence Mr. Bonar Law made a statement, which, however, added little to what was already known, beyond the fact that the amount of the German indemnity has not yet been fixed.

Mr. Bonar Law said that at Versailles there could be no question about discussing details with the German delegates, but at Spa they would get a step further toward normal relations and there would be discussions with the German delegates and, if the Germans were prepared to carry out the treaty, there was reasonable hope of success.

ROBBERIES RAPIDLY INCREASE IN BERLIN

Britisher Back in London Describes Growing Wave of Crime

London, May 21.—A traveler who has returned here after a visit of some duration in Germany states in these disturbed days, when the "revolution profiteer"—the successor of the war profiteer—haunts his newly-acquired wealth in the face of an impoverished populace, robberies and burglaries in Berlin are increasing at an abnormal pace. Street signs are full of announcements offering rewards for the return of stolen goods, and in one of the main business streets of Berlin he saw this notice displayed in a fancy goods store window:

"Gentlemen burglars are requested not to break open the shop front nor to tamper with the locks. There is nothing to steal here. All property is removed from the shop windows at night."

There have been scores of hold-ups, and the other day a man was stripped of his clothes, shoes and hat and left on the side walk in his underclothes.

Hotel Robberies. It is not safe for hotel guests to leave any portable property of any description in their rooms. Articles of clothing have a way of vanishing into thin air, and hotel proprietors decline all responsibility. Police statistics indicate that the number of hotel robberies has trebled within the last five years.

To leave typewriters unpadlocked is sheer culpable negligence on the part of the owner. The Berlin criminal police force has been obliged to organize a special department dealing exclusively with stolen machines.

Cases of housebreaking have quadrupled within the last three years. Articles of clothing, bedclothes, carpets and curtains are the objects most desired by the thieving fraternity.

Dishonesty among factory hands has grown to a deplorable extent. Dishonesty among factory hands has grown to a deplorable extent. Dishonesty among factory hands has grown to a deplorable extent.

Not only are churches, cemeteries and museums immune from robberies, the booty carried off being mostly ancient gold ornaments and jewelry.

LADIES! LOOK YOUNG. DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will know.

Gray hair, however handsome, denotes advancing age. We all know the advantage of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly.

You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears, after another application or two, its natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger.

"Woman is a delusion!" exclaimed the old bachelor. "And man is always hugging some delusion or other," was the girl's retort.

PLANTING OF TREES ON THE PRAIRIES

Winnipeg, May 21.—It is hoped to get tree planting actually under way in the prairie provinces by organizing each small community this Summer, and there will be close co-operation with the Dominion Government's tree planting nursery at Indian Head, according to Robson Black, executive secretary of the Canadian Forestry Association, a visitor in this city.

With the idea of demonstrating to the farmers the advantage derived from planting shelter belts of trees, so named because they shelter the early grain from the hurricane winds which blow across the prairies, the Canadian Forestry Association will send a "tree planting demonstration car" through Manitoba, Saskatchewan and Alberta. Instructional talks and motion picture displays of tree planting will be given.

FAMILIES IN FRANCE

The Hague, May 21.—Establishment of a national fund for large families, proposed by M. Corraed, has been approved in resolutions passed at a meeting of the "French Natalists" Commission, according to reports reaching here. This fund will be raised by taxes imposed upon bachelors and upon heads of families who have reached a certain age and have fewer than three living children.

WAR IS UNLUXURIOUS

ALL WORK, SAVE AND GIVE UP LUXURIES

Such is Civilization's Task, Says Sir Robert Kindersley

ONLY INDIVIDUALS CAN BUILD A BETTER WORLD

Only by the maximum effort of the individual in producing the utmost possible, in denying himself every use of luxury and in spending his money solely upon the absolute essentials of life can the world complete the task which it set for itself in August, 1914.

Only by abandoning the present wave of reckless expenditure, only by real personal sacrifice can it maintain the principles for which the war was fought and which are the common heritage of civilized nations.

This, in effect, was the keynote of a powerful and masterly address on the subject of "Citizenship and Savings" delivered at the Canadian Club luncheon to-day by Sir Robert M. Kindersley, G.B.E., Governor of the Hudson's Bay Company.

Discussing the close relationship between citizenship and saving, Sir Robert warned against the inculcation of meanness instead of real, honorable thrift in the minds of the people.

A broad spirit of economy was necessary. "What the world needs more than anything else," he asserted, "is the knowledge among the people of the proper spending of money. Due to the reckless habit of spending all over the world is leading the whole world to a financial crisis which can be avoided only by restoring to the people a proper perspective on money spending."

Sir Robert Kindersley described at some length the "War Savings" organization which had been formed in England to collect the savings of men and women of small incomes. This organization included some 200,000 voluntary workers, most of them from the working classes. Though it was assisted by the impetus of the war, the organization was very well up at the beginning. It was possible later, however, he said, to capture the imagination of the people by avoiding the necessity of raising money to carry on the war, and of transferring their purchasing power to the Government. The realization that this centralization of purchasing power eliminated competition in purchasing and help to retard advances in prices.

Had to Borrow. "But we never got down to that point of sacrifice commensurate with the sacrifices of our soldiers. The individual did not subscribe enough to the Government. It was necessary, therefore, to have to borrow from the banks. It was, of course, impossible to secure all the money necessary from the people and the Government, therefore, had to borrow from the banks. It was, of course, impossible to secure all the money necessary from the people and the Government, therefore, had to borrow from the banks.

The result was that the purchasing power would not in this way be transferred to the Government, said Sir Robert Kindersley. It was distributed among individuals, and we had the competition in purchasing, the result of which is naturally higher prices.

The Common Purpose. "Now that the war is over we have to see that the principles for which the war was fought are firmly established. This is our common purpose to-day, just as victory was our common purpose before. If that means anything it means that we want to see the standard of living raised, but raised on a sound basis. We want the working man to have a living wage and something over besides. That is simply a translation of the ideals of freedom and justice for which we fought."

Now Europe's factories, railroads, industries are worn down by years of work without repair during the urgent war period. We have got to carry out repairs, extensive repairs in every direction. We must remember, too, that untold millions of workers were killed in the war. In view of this staggering task, this task which we require the consecration of the energies of every one of us, I say we have nothing which we can rightly spend on extravagances and luxuries! We say that the nation must do this, and the nation must do that—we are the nation! It is upon the individual that the burden must rest. It is the people, it is you and I, who must decide how the nation's money is to be spent. If we as individuals demand luxuries and extravagances on the world's labor and material will go into those useless channels. If we forego those luxuries, however, the world's labor and material will be available for the rebuilding of

HADECEZEMA

For Over 28 Years

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat, is almost unbearable.

The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do so much for those who are almost driven to distraction with the terrible torture.

Mr. James Walker, 152 Niagara St., Hamilton, Ont., writes: "I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now free of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends."

Manufactured for over 40 years by The T. Millburn Co., Limited, Toronto, Ont.

civilization—for the accomplishment of our common purpose and our common heritage for which millions died!

"We cannot allow the sacrifice of soldiers to be in vain!" Sir Robert affirmed, his voice shaking with deep feeling. "But they will have been in vain, very largely in vain unless we as individuals direct the situation to-day along the channels of sacrifice and economy!"

A Staggering Task. "The task is, as I said, staggering. Consider for a moment France—torn from end to end—France, crying out to the world for money to rebuild herself. How can we help her if we spend our money on useless luxuries? If we could really understand her suffering there are few men who would not give up for the next two years all useless expenditures."

"The nation," Sir Robert prophesied, "which saves money and foregoes luxuries will be the first to recover from the war—that is why citizenship and savings are very closely related."

"That higher standard of living which we all desire to see will not come from idleness or legislation. Broadly speaking I am in favor of an eight-hour day, but we must have a maximum of effort during that eight hours—we must couple two things—maximum effort and the avoidance of useless luxuries. But it must be effort on the part of each, everyone of us, as individuals, if we are to lower the cost of living and thus raise the standard of living. We all must work to bring this about—there is no nation of slaves which is going to produce in order that we may fatten on luxuries."

(Continued on page 7.)

COMING FOR RACES

A. J. Kennedy, automobile editor of The Seattle Post-Intelligencer, and Mrs. Kennedy, are bringing their own motor car and heading a party of Seattle people who are coming to Victoria to-morrow for the motor races at the Willows. Afterwards they will tour the Island.

While in Victoria Mr. and Mrs. Kennedy will be the guests of Charles L. Harris, secretary of the Island Automobile Association. Mr. Kennedy is to write some automobile stories while he is on the Island this time.

IT SAVED HIS JOB SAYS SWITCHMAN

Burns Was Almost Down and Out When Friends Advised Him to Take Tanlac

"I have to thank Tanlac for my being on the job to-day for I was just about down and out when I started taking it, but now I'm as well and strong as ever I was in my life," recently declared Walter Burns, switchman, employed by the Canadian National Railway, and residing at 412 Aberdeen Avenue, Winnipeg.

"When I returned from overseas, I was in such a terribly run-down condition that I hardly had strength enough to work. I had no appetite, and the little I forced myself to eat seemed to do me no good. My stomach was so out of order that everything I ate turned sour, and I formed gas that bloated me up as tight as a drum, and pressed up against my heart until it would thump like a hammer against my chest. This palpitation was so bad at times that I began to think I had serious heart trouble. My kidneys also were out of order, and I had such a pain across the small of my back that it was every time I had to throw the switch. Altogether I was just about knocked out, and knew that if I did not soon get relief I would have to lay off."

"I never realized how many people were taking Tanlac, and being benefited by it until one day I mentioned to the boys about my run-down condition, and then one after another told how Tanlac had relieved either them or their friends of stomach and kidney trouble, rheumatism and other things. So I made up my mind to try it, and it certainly has made a new man of me. My stomach is in fine shape now, and I can eat anything that's put on the table, and am never bothered with sourness, gas, or palpitation of the heart. I used to be nervous and restless at night, and would lie awake for hours, but I sleep the whole night through now, and get up in the mornings feeling just fine. I have gained fully ten pounds in weight, and I can honestly say that I never felt better in my life than I do to-day."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

GRASSHOPPER MENACE.

Regina, May 21.—Encouraging news concerning the grasshopper pest has been received, which indicates that with careful watching the danger may be overcome. Egg-tests

conducted at Carnduff show that after being kept in a warm temperature for over two weeks no vitality was apparent, and the belief is expressed that the cold and wet weather following the first warm spell in March killed the eggs.

MILL MEN WISH TO STEADY MARKET

Fall in Prices Causes Operators to Meet in Vancouver

Vancouver, May 21.—With a view to stabilizing a steadily falling market, mill operators and loggers will hold a conference here this afternoon, when an effort will be made to secure a more satisfactory adjustment in prices. The mill men met yesterday when the present condition of the industry was discussed at considerable length. During the past few weeks the market has steadily declined. Cedar logs, which held at \$45 per thousand for No. 1 grade to \$30 for No. 3s, have tumbled \$7 or \$8, and shingles have dropped forty per cent. Fir logs, which are still wholesaling for \$30 for the best grade to \$17 for the poorer stuff, have held firm despite the declining markets, and a readjustment of the fir prices will be the main subject to be considered at to-day's conference. It is likely a reduction of \$5 per thousand will be requested.

FEET AREN'T ACHING OR TIRED NOW—"TIZ"

Use "Tiz" for tender, puffed-up, burning, calloused feet and corns.

People who are forced to stand on their feet all day know what sore, tender, sweaty, burning feet mean. They use "Tiz," and "Tiz" cures their feet right up. It keeps them in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous exudations which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a box of "Tiz" now from any druggist. Just think! A whole year's foot comfort for only a few cents.

A man's greatest success in life is generally unexpected.

MESOPOTAMIA WILL PRODUCE COTTON

Opinion Expressed by British Investigator; Sudan Also a Good Field

Oldham, Eng., May 21.—The British Cotton Growing Association has received a report from an investigator to the effect that Mesopotamia is likely to produce a large amount of cotton in the next few years. This opinion is expressed by B. Crapper, vice-president of the Oldham Chamber of Commerce, who went to the East to investigate the possibilities of increasing cotton growing in Mesopotamia, Egypt and the Sudan. Mr. Crapper has told the British Cotton Growing Association that Mesopotamia possesses soil and climatic to grow excellent cotton, but that its production is limited by its small population of 3,000,000 persons, lack of irrigation and transport facilities and the need of instruction in scientific methods of production.

He said that the Gash delta in the Sudan afforded an opportunity to substantially increase the production of Egyptian cotton, but there was need of better transport facilities.

One of the drawbacks he found in Egypt was improper distribution of seed.

EXPLORING PARTY GOES ON LONG TRIP

Government Men Leave Winnipeg to Travel to Arctic and Back

Winnipeg, May 21.—F. H. Kitto, of the natural resources branch of the Department of the Interior, Ottawa, and a Government expedition are on a 4,000-mile trip into the hinterland of Canada for the purpose of making a report on the buffalo country and the mining possibilities of the Farthest North. The party, which left here, will go from Peace River crossing down the river by boat to Fort Chipewyan and on to Fort Fitzgerald; overland for sixteen miles to Fort Smith and by boat down the Mackenzie River to Rat River and thence to Fort McPherson; up the Rat River to the height of land between the waters of the Mackenzie basin and the Yukon, reaching Porcupine River at Palerie House; down the Porcupine River to Dawson City and thence to Vancouver.

A side trip into the Stewart Lake mining district will be made and Government reports will be made on the road between Fort Fitzgerald and Fort Smith, which is being graded as a vehicle road, and will also make a report on the buffalo country. The party expects to return to Winnipeg about September.

QUESNEL RIVER CLAIMS A VICTIM

Quesnel, B. C., May 21.—Lester V. Marsh was drowned yesterday afternoon in the Quesnel River while attempting to cross on a raft to string a wire cable across for a ferry. He was the only son of S. J. Marsh, president and manager of the Cariboo Platinum Extracting Company.

PHARMACEUTICAL COUNCIL.

Vancouver, May 21.—Thomas H. Robinson, of Vancouver; Frederick L. Williams, of Victoria, and John H. Buckham, of Golden, have been re-elected by acclamation as the three members of the Council of the Pharmaceutical Association of British Columbia. The association will hold its annual meeting in Vancouver this year on June 10.

"DANDERINE"

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and thickness.

Teddy hated to wash his face more than once a day. Just as vehemently he liked to use the hose to sprinkle the flowers. Father had to remonstrate with him for oversprinkling his flowers. "You'll make them wilt if you sprinkle them at any time except in the morning," he told him. A few days later mother was trying to persuade him to wash his face for lunch. Then grandmother tried to use her influence. "Why, I always wash my face before lunch," she told him. Then Teddy looked at grandmother's wrinkles and remembered the flowers. "Yes, and just see how wilted it is," he retorted.

Porter—"Miss, your train is—"
Precise Passenger—"My man, why do you say 'your train' when you know it belongs to the railway company?"
Porter—"Dunno, miss; why do you say 'my man' when you know I belong to 'my old woman'?"

SIR ROBERT KINDERSLEY.

Sir Robert Kindersley's visit to Canada is made at a time when the people of this country are looking towards an era of development in order that her tremendous financial obligations occasioned by the war may be discharged. With his unique opportunity of appraising conditions in the Dominion at their relative value, combined with his first-hand knowledge of financial movements on the other side of the Atlantic, any announcement Sir Robert may make during his visit may be taken as the result of a careful analysis of these two considerations.

NOW FOR THE LEAGUE.

Nothing would suit the plans of the Moscow Government better than a lengthy harangue between the various Allied nations as to whose duty it shall be to provide opposition to the Bolshevik advance guard which already has nosed its way into the harbor at Enzeli. It is true that Persia has suggested a way out of what must gradually develop into a complicated situation—unless appropriate action is taken at once—by appealing to the League of Nations for protection.

Unfortunately, however, the League is as yet not possessed of the requisite machinery to give effect to its orders were it in a position to issue them. And practical though its aims and objects may be, very little can be accomplished by what, after all, is nothing more than an academic body at the present time. This is a case, nevertheless, where the spirit and intent of the League's covenant should be made to apply as if the essential formula to give effect to its demands already had begun to work.

All that would appear to be required is a joint note from the Allied nations insisting that the Bolshevik troops leave Persia by the way they arrived. Unless some such course is adopted nothing will remain but for Great Britain—who is under no obligation to go to the succor of Persia; but whose mandate in Mesopotamia is directly challenged by the Enzeli incident—to regard the matter as a direct attempt upon the part of the Moscow gang to undermine British influence in the Near East, and act accordingly.

THE DOLLY VARDEN INCIDENT.

Although it very naturally takes the stand that much harm can be done by any Provincial Legislature as soon as it seeks to exceed or abuse its functions. The Journal of Commerce—whose editor is the Hon. W. S. Fielding, Minister of Finance under the regime of the late Sir Wilfrid Laurier—deals somewhat tenderly with the action of the British Columbia Legislature in passing its Dolly Varden legislation at its recent session.

The Journal suggests that all who are interested in the question will do well to reserve judgment until the Government's side of the case has been heard. "Honest John," the comment proceeds, "must be allowed a hearing before he is condemned." The article was written, of course, before the agreement had been reached between the two contesting parties virtually giving effect to the original undertaking prescribed by the 1919 Act, a commentary upon a good deal of the criticism—merited or otherwise—indulged in by a large section of the press upon obviously ex-parte statements.

In its reference to what actually constitutes ground for an appeal for disallowance The Journal takes a view similar to that expressed in the Legislature by the Attorney-General, who declared that it should not be the concern or business of the Ottawa Government to test the validity of this Province's legislation. The Journal comments as follows: "The allegation that an Act is a bad one, that it is unjust to somebody, is not a ground for disallowance. The question of what is just or unjust, right or wrong, is a question for the Provincial Legislature to consider and decide. If the injustice be clearly established, if indeed, it be admitted, the only remedy is to refer the parties concerned to the Legislature to ask for repeal or amendment. Neither the Federal Government nor the Federal Parliament is a court of appeal on such a question."

Fortunately or unfortunately, however, at the stage when legal theorists and political disciples were squaring away for the constitutional circus, then bidding fair to take place, both parties to the controversy calmly composed their apparent differences and settled the dispute without the

slightest regard for those who had virtually smacked their lips for the entertaining fray in the courts.

SUGAR.

Although very little difficulty is experienced by the Canadian public in obtaining sufficient supplies of sugar to meet the bare domestic demand, there is a growing belief that unless action is taken by the Dominion Government to insure a proper distribution during the approaching jam-making and fruit preserving season a very serious loss will be inevitable. The statement issued by the Canadian Trade Commission is instructive in its way; but its general exhortation to the people at large to stock up at once does not strike us as the proper advice to give in connection with a commodity upon which a very important fruit growing industry in British Columbia must of necessity depend.

We are still of the opinion that Federal machinery should be employed for the purpose of giving such a guarantee of distribution as is possible under the circumstances in those sections of the country where conditions demand it. Even at the expense of discomfort in the supply for normal household requirements there should be ample provision to meet the essential needs consequent upon the marketing of large shipments of small fruits from this Province. Failure to provide accordingly may mean great financial loss to numerous orchardists.

WHY THE DELAY?

In spite of the fact that the Secretary of the Victoria Board of Trade has made repeated applications to the proper authorities in an appeal for a daily mail service in conjunction with the new train now running to Alberni and Courtenay, there is a silence which suggests an unwarranted disregard for the needs of this Island in the matter of mail delivery. Some time in advance of the newly-inaugurated railway accommodation an endeavor was made to obtain a simultaneous change in the dispatch of mails by discontinuing the present inadequate tri-weekly service. Up till the present time, however, the only progress made is the receipt by the Board of a communication from the Superintendent of Postal Services in Vancouver to the effect that the Board's request to Ottawa had received his endorsement. This is a small matter of cost compared with the convenience the additional service would be to the points concerned and little delay should be occasioned in completing the necessary arrangement.

NOTE AND COMMENT

Apart from the possible effect the newspaper chastisement of British Columbia's Agent-General may have upon that section of the British public in whom he is endeavoring to cultivate a profitable interest in this Province, Premier Oliver's expression of view that no civil servant should publicly criticize the action or utterances of a member of the Legislature must be accepted as sound in principle. Unhappily, neither Mr. Wade's effusion nor Mr. Oliver's admonition adds much to the general knowledge of the world.

It is understood that Mr. Herbert Samuel, the former Postmaster-General and Home Secretary under the Asquith regime, will be appointed to the position of High Commissioner for New Palestine under the mandate accepted by Great Britain in accordance with the Turkish treaty. Mr. Samuel proved himself to be a capable administrator under ex-Premier Asquith, while the exhaustive survey of conditions in the Holy Land recently carried out by him on behalf of the British Government peculiarly equips him for the important post for which he has been named.

An appeal will be made to Premier Oliver by a select committee of the Victoria branch of the Provincial Civil Service Association to permit a portion of the grounds at the rear of the Parliament Buildings to be used as a tennis court by the Civil Servants. The association is nothing if not courageous, and is the suggestion to be dropped to Mr. Oliver that he don flannels and take part in the first series of gentlemen's singles? Surely the Association remembers that the Premier is an exponent of the overall donning theory as the correction of municipal and other ills.

OTHER NEWSPAPERS' VIEWS

LAND AND HOUSING. (Fred Skirrow, in The Yorkshire Observer.) Sir, we have some smart brilliant men in the Liberal Party, but none smart enough to solve the poverty problem by any other method than giving the people the right of access to land—the source of all those things of which houses are built, and the sites on which those houses must stand. Land is the source of all that human beings require—food, clothing, houses and luxuries. Yet we have all kinds of politicians stupidly trying to solve the poverty problem without any reference to the effect which land monopoly and taxation have upon production.

THE ECONOMISTS AND THE MAN IN THE STREET.

(The New Statesman.) Popular economics are often crude enough in the short run. Yet "not once but often in our Island story" it is the professional economists who have had, in the end, to come round to the view of the man in the street. Consider such historic instances as the theory of the wage-fund. Nassau Senior's "last hour" argument against the Factory acts, the idea that exceptionally disagreeable or risky occupations would, by way of compensation, secure higher wages, the economists' case against the graduation of the Income Tax, their opposition to an Eight Hours' bill, the subtle objection that Old Age pensions would lower wages, the conviction of the impracticability of a Legal Minimum Wage, the settled belief that Trade Unionism could not possibly effect a durable and general rise in wages—all of them, we fear, still commonplace in college common rooms, though no longer believed in by the economic professors themselves. "The untutored mind of the workman," somewhat ruefully observed the Drummond Professor of Political Economy in the University of Oxford a whole generation ago, "has gone more straight to the point than economic intelligence misled by a bad method."

GERMAN DELEGATES TO MAKE STATEMENTS AT SPA

(Continued from page 1.) Restoration of Trade. Manchester, Eng., May 21.—Writing on forthcoming conference at Spa with the Germans, the Editor-in-Chief of The Manchester Guardian says: "Germany is potentially in a position to put forward a policy of intelligent and reasonable Allied demands, but it will be expressly pointed out that the naming of figures must be made dependent on the restoration of the European economic machine to something like working order. The present chaos renders any reasonable conversation impossible. Among the conditions necessary to a reasonable discussion are likely to be found the following: 'The granting to Germany of a moderate amount of shipping tonnage, say 400,000. 'The allocation to Germany of the proceeds of the liquidation of German property in the United Kingdom and France in pounds and francs. 'Army of Occupation. 'A drastic reduction of the grossly excessive and swollen costs of the occupation, which amount to between 2,000,000,000 and 4,000,000,000 marks. 'Insistence on the impossibility of fulfilling the coal delivery obligations if the Silesian coalfields are lost. 'Restoration of economic intercourse between Germany and her neighbors, of at least on the basis of reciprocity.'"

The allocation to Germany of the proceeds of the liquidation of German property in the United Kingdom and France in pounds and francs. Army of Occupation. A drastic reduction of the grossly excessive and swollen costs of the occupation, which amount to between 2,000,000,000 and 4,000,000,000 marks. Insistence on the impossibility of fulfilling the coal delivery obligations if the Silesian coalfields are lost. Restoration of economic intercourse between Germany and her neighbors, of at least on the basis of reciprocity.

STARTS ORE SEARCH FOR RAW MATERIALS FOR B.C. STEEL MILLS

(Continued from page 1.) has been delivering a series of lectures to those returned men anxious to obtain some knowledge of the mining industry in order that they may engage in prospecting. Mr. Sloan feels that he has been successful in placing the resources outlined in good hands and that the result will be the compilation of the information necessary for the guidance of those contemplating the launching of the iron manufacturing industry in the Canadian Northwest.

Dominion to Aid. It is pointed out in this connection that the Provincial Government's work is to be supplemented by that of the Geological Survey Branch, Department of Mines, Ottawa, which will have two parties in the field. One of these, under J. D. MacKenzie, will make a geological survey of the Taseko (Whitewater) Lake area, and the other, under C. H. Freeman, will conduct a topographical survey. C. Camsell, in charge of the geological survey work in this Province, recommended the dispatch of these parties on receiving representations from Mr. Sloan, and the latter is confident that, from the three sources indicated, there will be nothing overlooked during the season's exploratory operations.

New Reserve Declared. As an instance of the utility of the amendment to the Mineral Act introduced by the Minister of Mines and passed at the last session of the Legislature, the Geological Survey, in conjunction with Mr. Crossland's appointment, that a reserve has been declared on the drainage area of the Taseko (Whitewater) Lake, Chilkoot Lake, Tsuniah Lake, Chiloquit Lake, and the Chiklo River and Big Creek, Clinton Mining Division. This reserve takes effect on June 1. Claims already recorded within the area are not to be interfered with, as provided by the terms of the Act, but all open iron property within the limits defined will be held by the Crown until it is determined how far they may be used for the encouragement of the industrial enterprise so much desired.

Time Ripe for Steel Plant. Discussing the general question of the production of iron and steel in British Columbia from the native resources of the Province, Mr. Sloan states that conditions never were more favorable for the successful establishment of the necessary plant. He does not express an opinion as to the respective merits of the blast furnace and the electro-thermic furnace but ascertains that at Redmond Beach, California, by means of which he claims to be able to reduce the magnetite ores of British Columbia at one-half the cost estimated by Dr. Alfred Starfield, Professor of Metallurgy, McGill University, who in his investigation of the feasibility of the electric treatment of British Columbia ores, based his calculations on the results obtained by the Swedish type of furnace. In order that Mr. Agnew's assertions may be speedily established or otherwise Mr. Sloan agreed, on behalf of the Provincial Government, to assist to the extent of shipping tonnage to a considerable quantity of provincial ore. This has been done and the results are awaited with interest.

Production Here Now Cheap. A few years ago, Mr. Sloan points out, the development of the iron ores of the Province and their commercial utilization presented problems that seemed insuperable because of the advantages. The East had over the West in cost of materials and labor. Competent advice, however, now indicates that pig iron can be produced as cheaply in British Columbia as it can in Pennsylvania and other industrial centres of America. Ore is costing roughly \$7 a ton at the lower grade Superior ports or approximately \$7.50 a ton at the eastern furnaces. The cost of British Columbia magnetite, landed at some point within easy reach of fuel could not be more than \$4.50 a ton. In fact such a figure would allow those delivering the ore a good profit. As to the cost of fuel, the former difference favoring the East has been eliminated as coke, which before cost the Eastern manufacturers from \$2.00 to \$2.75 a

ton, is now costing them between \$11 and \$12 a ton, at which figure it should be possible to secure it in British Columbia. Ore Cost Lower Here. Two tons of iron approximately are required to produce a ton of pig iron. In the East this ore is worth at the furnaces about \$15, while in this Province it could be had for about \$9, which is a liberal estimate. One and a quarter tons of Eastern coke is necessary to produce one ton of pig iron, which means an expenditure on fuel at present prices of about \$13.75, while before the war it cost something like \$4. Under these circumstances it would appear that British Columbia now would not be at a disadvantage in respect of the production of pig iron.

Fragrant Coffee

How To Make It First, use a Tricolator, the automatic coffee-maker which requires no attention and never fails, provided you choose SEAL BRAND

Allow a heaping tablespoonful to each cup. Pour boiling water on the coffee. When filtered, serve. It will be the most delicious coffee you ever tasted. Use the fine-ground grade of Seal Brand, in 1/2, 1 and 2-lb. six-ight Tins. At all good dealers. Our booklet, "Perfect Coffee—Perfectly Made" is sent free on request. Write for it. Market Awaits Products. Mr. Sloan on the question of the local market, stated that, from information secured from various sources, he was confident that the output of, say, a 300-ton blast furnace, could be absorbed in the Canadian and American West. He drew attention to the changed conditions as to costs as indicated, to the fact that the sole source of all the pig iron now used in the West was the Eastern manufacturers, and to the indications pointed to anyone giving the matter thought and in touch with the situation that the requirements of the territory that a local industry would be in a position to supply are constantly growing.

MOONSHINERS WERE CAUGHT AT WORK

Truro, N.S., May 21.—At Harmony, Colchester County, D. J. Kearny, of the Inland Revenue Department, Montreal, with the assistance of the Truro police, raided three places and captured a gang of moonshiners at work making liquor. Plants and liquor were destroyed.

\$100,000 FIRE IN NEW BRUNSWICK

St. John, N.B., May 21.—The little village of Milford, situated just across the St. John River from Indian town, was hit by fire which caused a loss over insurance of about \$100,000.

PORTLAND WOMAN SHOTS HUSBAND AND THEN HERSELF

Portland, May 21.—August Bjorkland, a grocer in the North section of Portland, was shot by his wife this morning, the woman then turning the gun upon herself and inflicting a wound which according to physicians probably will result in her death. Physicians also said that Bjorkland would die. According to the police, jealousy was the cause of the woman's act.

ARCHBISHOP GOES TO ROME AND IRELAND FROM AUSTRALIA

London, May 21.—(Canadian Associated Press).—The Daily Telegraph's Sydney, Australia, correspondent quotes a speech by Archbishop Manning on his departure for Rome. He said that when he visited Ireland that he would kneel at the graves of the murdered men and take Australia's sympathy with him. Premier Lloyd George had received letters from seven Australian Victoria Cross winners and from 10,000 other soldiers, affirming their sympathy with the Irish determination, but had not the courtesy to reply, he said.

**CIVIL SERVANTS
EYE TRADE UNIONS**

Association Faces Crucial Issue With Split in Ranks

Already affiliated with the Trades and Labor Congress of Canada, the advisability of completing the cooperation with the trade unionists by joining the local Trades and Labor Council, is a matter that is to be thrashed out at the next meeting of the Provincial Civil Service Association.

The point at issue came up for discussion at a meeting of that body last night held in the rooms of the Comrades of the Great War, but after preliminary discussion the matter was deferred until the next meeting. Provincial President McKenzie gave notice of motion to the effect that the Civil Servants do affiliate with the local Trades and Labor Council.

With some 400 members in the Association, the issue promises to be warmly discussed.

Without Prestige Loss.
Secretary Pilmer last night read a report on the affiliation question showing the situation in all its phases. He stated that the American Civil Service Association, comprising some 60,000 members, were affiliated with the American Federation of Labor with excellent results and without loss of prestige.

What deterred many, he stated, was the thought of strikes, but he desired to assure the assembly that no strike could possibly be affected against the wishes of the majority of the Association itself. Through the efforts of Messrs. Maitson and Pilmer, the committee on gardeners' wages, it was announced that that body was now receiving \$4.00 a day instead of \$3.75 as formerly.

Amend Constitution.
Amendments to constitution and election of delegates occupied the remainder of the time. It was decided that meetings of the Association should be held on the first Monday in every month, the executive quarterly as heretofore. Fifteen will be a quorum at a regular meeting, while the quota for any other meeting is to be thirty members. The executive is to meet fortnightly.

It was decided that in the case of members of the civil service who had been members of the association and had dropped out, upon wishing reinstatement should have to pay all back dues for the period under consideration, with, however, the covering clause that these dues could be remitted all or in part by action of a general meeting, on the recommendation of the executive. A similar clause to have effect with new members more than six months in the employ of the Government did not carry last night, but will be taken up at the next annual meeting, notice of motion being thus given.

On committee of delegations, Messrs. Loveland and Edwards were appointed to permanent positions on the executive council, while Mr. Loveland will fill the vacancy on the Provincial executive. Three delegates to the Provincial convention were elected as follows: Messrs. French, with Messrs. Bridge, Hunt, Harrison, Vallance, Dubois, Llewellyn, and Colvin.

Want Housing Scheme.
Messrs. Fairburn, Whittaker and Dubois were appointed to a committee to report on the project outlined by Mr. Fairburn that the Government be asked to institute a housing scheme similar to the Soldiers' Federal housing scheme, for the benefit of the civil service employees.

A committee on superannuation, appointed at the request of the Provincial executive, was elected as follows: Messrs. Bridge, Hunt, Harrison, Vallance, Dubois, Llewellyn, and Colvin.

Mr. Pilmer, reporting for the sports committee, told of great progress made by the association along all lines of sport. A golf club and tennis club had already been formed, while large numbers had entered their names for swimming, baseball, cricket, and other allied sports. The possibility of securing tennis and other courts in the rear of the buildings is to be considered.

Delinquents in Ranks.
Considerable discussion cropped up all through the evening over the question of those who belonged to the civil service branches but would not join the association. It was claimed that these, whether they paid dues to the organization or not, were directly benefited by the work of the association. Mr. Manson pointed out that no matter what imposts they might elect to impose on the delinquents these had still the opportunity of remaining outside the fold, and still deriving benefit from the efforts of the Civil Service Association.

A letter from Seymour De P. Green, organizing secretary of the Victoria Boy Scout Association, asking for financial support, was respectfully filed, Chairman A. B. McNeil pointing out that only the straightened state of their own exchequer prevented the association from contributing to a cause with which they were heartily in sympathy.

Speaking on the work of the Association Secretary Pilmer stated that out of 400 cases dealt with 276 raises had been secured, a glowing testimony to the value of sane and careful organization.

For Women At Home

A prominent member of the G. W. V. A. and his bride are honeymooning in the city from Vancouver, where they were married on Wednesday evening. The bridegroom is Harold A. Lees, who has figured prominently in returned soldier organizations in the Terminal City, and is known to a wide circle of friends in Victoria. The bride was Miss Isabel Mary Donnell, of Vancouver. Significant of the popularity of the young couple, an account of the wedding in a Vancouver paper says: "Rumor has it that Wednesday night's impromptu entertainment will pale into insignificance before one planned on the return of Mr. and Mrs. Lees, should the boys learn the date and hour of their arrival in Vancouver. Mr. and Mrs. Lees will reside at Osborne Road, in the North Vancouver Municipality."

The wedding was solemnized on Tuesday evening by the Rev. Dr. Campbell at "Breadalbane" of Miss Nina Marie Wright, of Ladysmith, and Mr. John Curry, of this city. The bride's bridesmaid, Miss Ruth White, was bridesmaid, and Mrs. Mona B. Wright acted as matron of honor. On their return from the honeymoon Mr. and Mrs. Curry will make their home in Victoria.

Sir Haviland and Lady de Saumarez are at the Cadboro Beach Hotel for the balance of their stay on the Pacific coast. Sir Haviland has filled the important position of judge of the Shanghai courts for years. He is an enthusiastic golfer, and is the president of the leading golf club of Shanghai. He has a reputation as an art connoisseur, and is an expert sketcher himself.

The Social Guild of St. Andrew's met on Thursday afternoon in the lecture room of the church. Mrs. D. E. Campbell was in the chair and Miss Bertha Wynne gave an interesting talk on the subject of her work, "The Subnormal Child." Miss Holloway contributed two solos which added greatly to the enjoyment of the afternoon.

A brother of Sir Haviland's, Captain de Saumarez, is also at the Cadboro Beach Hotel. The captain has early recollections of Victoria, as he was stationed at Esquimalt years ago as a midshipman. He has led a distinguished career in the British navy in various parts of the world, and is now retired.

Among those who are shortly leaving the Victoria Club after long residence there is Miss O'Rourke, who will spend a couple of weeks with friends before leaving to visit in Ireland for the summer months. Miss McDonnell, who was on the staff of the S. C. R. until it closed recently, has left for her home at Cobble Hill.

Major and Mrs. J. R. Ross, who were married in Portland on Tuesday, are spending the honeymoon on Vancouver Island. The bridegroom is well known in this city and Vancouver, and the bride was Miss Gretchen Day, of Los Angeles. She is a cousin of Mrs. Foster Huntington, of Vancouver.

Mrs. R. Mackintosh, South Turner Street, left today on a visit to the home of her late brother, the Rev. Dr. Frizzell in Washington, D. C. Mrs. Mackintosh will return by way of Toronto and Owen Sound, Ont.

The Colwood Women's Institute will hold a baby clinic on July 14. Dr. Price will be asked to act in the same capacity as on a similar occasion at Duncan. Miss Galloway will act as supervising nurse.

VICTORIAN ORDER IS APPRECIATED

Organizing Secretary Back From Tour of the Mainland

Back from a trip to the mainland this morning Miss Jessie Forshaw, Provincial Organizing Secretary of the Victorian Order of Nurses, reports a growing interest in the public question of district health nursing. Miss Forshaw addressed meetings in Vancouver and vicinity on public health and its relation to community welfare.

"I found people beginning to realize that the health of the community is of paramount importance, requests for public health nurses are increasing, and in Vancouver, where a big drive for funds is in progress, there is every evidence that the objective will be reached," said Miss Forshaw this morning.

"Collectors stated that never before had they received such an encouraging response to their solicitations. Many people had at some time or other occasion to call upon the services of the V. O. N., and no call had ever been refused.

"When the V. O. N. was first organized its object was to supply nurses for those who could not afford to call in the graduate nurse. But so popular did the order become that its services were in request from all classes, and all receive attention. The first thought of the Victorian Order of Nurses is to alleviate suffering. And more than that—to prevent disease.

"Nurses who receive their training with the V. O. N. are taught the principles of public health nursing with a special view to the prevention of sickness. One of the principles of the order, said Miss Forshaw, has been health education, combined with service.

"The need of the V. O. N. is for more workers. Before the war, and it is thought that with war work over that those organizations will resume their interest.

"Our reconstructive work," Miss Forshaw stated, "will include an extension of district nursing facilities in rural homes, child welfare and pre-natal work, anti-tuberculosis and industrial nursing."

Arrangements are well in hand for the ball at the Empress Hotel next Monday night in honor of Sir Robert M. Kindersley, Lady Kindersley and party. It is anticipated that the event will rival in interest the brilliant social affairs of the past winter months, with the exception perhaps of the ball when H. R. H. the Prince of Wales was present.

Sir Herbert Kent is chairman of the ball committee, and is receiving liberal assistance in perfecting arrangements for the distinguished guests. Dancing will begin at 10:30 p. m.

Among those who have received invitations in addition to Sir Robert Kindersley's party, His Honor the Governor E. G. Prior, Mr. Prior and party, and the Cabinet Ministers and members of the Legislative Assembly and Mr. Tolmie, Minister of Agriculture, Mayor and Mrs. Porter, the aldermen of the city and their wives, members of the School Board, Lema, Councilors of surrounding municipalities, Bishop Schofield, Bishop Macdonald, the executives of the Canadian Clubs, Hon. Chief Justice Macdonald, Judge Lampan, Mr. and Mrs. R. P. Butchart, Mr. and Mrs. George Bushby, Mr. and Mrs. S. Hunter, Mr. James and Mrs. Dunsamur, Brig.-General Ross and Mrs. Ross, Mr. Justice and Mrs. Gallher, Hon. Mr. Justice Gregory, Mr. and Mrs. S. Hunter, Mr. Futeher, Chief of Police and Mrs. Langley, Major D. B. Martyn, Mr. and Mrs. A. N. Moutat, Mr. and Mrs. Curtis Sampson, Mr. and Mrs. F. B. Pemberton, the Misses Pemberton, Dr. and Mrs. McMicking, Mr. and Mrs. J. C. Pendray, Mr. and Mrs. R. F. Pendray, Mr. and Mrs. Jack Rithel, Professor E. H. Russell, Miss Russell, Mr. and Mrs. Sayward, Capt. and Mrs. Troup, Mr. John Tomlin, Major and Mrs. Wollison, H. T. Ravenhill and many others.

FUTURE EXISTENCE IS NOT REVEALED
"Why I am not a spiritualist," the subject of which Dr. William Evans opened his three days' Bible conference was continued last night by the lecturer.

"Our dead, where are they, and can they communicate with us?" asked the speaker, who proceeded to point out that the only knowledge came from the scriptures. It was possible that the Divine Being could have revealed the future state, but He had not done so, said Dr. Evans. Taking as his text the parable of Lazarus and the rich man, the lecturer argued that it pointed out a future existence of suffering and also of happiness. But there was not a single case mentioned in the Bible of communication being held with the dead.

Lady Kindersley Advocates Strong Domestic Bonds

Lady Kindersley, wife of Sir Robert M. Kindersley and Miss Margaret Kindersley, are guests of Victoria ladies to-day.

With a stately but gracious personality, Lady Kindersley is typical of the dignified British woman of unaffected kindness of manner. While actively interested in the affairs of the day, she is devoted to her home, and is an advocate for strong domestic ties.

During the war, Lady Kindersley was an indefatigable war worker, serving in a munitions canteen and making garments for soldiers. She is also a great friend of the Girl Guides and the Boy Scouts with their code of good behavior and honor added to the practical training they receive.

HOSPITAL NURSES ORGANIZE ALUMNAE

Portrait Is Unveiled of the Late Revered Superintendent

The organization of an alumnae association of St. Joseph's Hospital Training School for Nurses was successfully carried out last night when fifty graduate nurses assembled at the invitation of the Sister Superior, and the association was formed under a unanimously approved plan. The Sister Superior presided at the opening of the meeting and outlined the aims and objects of the proposed organization.

The constitution was considered and approved, while further plans for the particular lines of work upon which the body will engage were laid over for the next meeting. Regular meetings will be held on the first Wednesday evening of each month, except in July and August, in the nurses' recreation room.

A vote of thanks was extended to Sister Mary Anne and other sisters of the training school staff for their interest and assistance in furthering the formation of the association. Sister Mary Bridget was elected honorary president and the other sisters were invited to become honorary members.

The unveiling of the portrait of the late Sister Mary Gertrude, who for many years was superintendent of the Training School was made by Miss Ethel Saunders. The impressive ceremony was conducted in the presence while all stood in reverent memory of the late sister, who was held in great esteem.

Following the election of officers, Miss Ethel Saunders, who was the unanimous choice of the meeting for president, took the chair. Other officers elected were: First vice-president, Miss Madigan; second vice-president, Mrs. Sylvester; recording secretary, Miss Florence Sehl; corresponding secretary, Mrs. Fowler; treasurer, Mrs. Sinclair, who with the following members will comprise the executive committee: Miss Johnson, Miss McBride, Mrs. Ride-wood and Miss Senneker.

Following is a complete list of the graduates of St. Joseph's Hospital School to date: Eleanor Allison, Agnes Johnson (Mrs. Frank Ellis), Bella Kuhlman (deceased), Bella Downy (Mrs. J. C. Davie), Emilia Thompson (Mrs. Hubert Lyons), Florence Senneker (Mrs. Madigan), F. L. Blackmore (Mrs. F. Williston), F. S. Haugh (Mrs. G. Scott), Ethel G. Saunders, Anna Martin (Mrs. W. P. Senneker), Monica Green, Rose Hagan, Lottie Dodd (Mrs. F. Bishop), Ada Tingley (Mrs. E. Vincent), Dora Cooper (Mrs. L. Jackson), Matilda Mellor (Mrs. F. W. Clark), Annie McLean, Onagh Packenham, Nettie Locke (Mrs. B. J. Mellich), Helen Curry, M. J. Kennedy, Lulu Thompson, May Davidson (Mrs. J. Stuart), Anna Gillis (Mrs. F. OBITUARY RECORD

The death occurred on May 20 at the home of her daughter, Mrs. G. H. Wilkinson, 1054 Southgate Street, of Christina Riddell, wife of D. H. Riddell, aged 59 years, native of Rox-

burghshire, Scotland. Mrs. Wilkinson came to this city 33 years ago and has been a resident of Alberni and the West Coast for the past 13 years. She is survived by her husband and three daughters, of the above residence. The funeral will take place on Saturday at 2 o'clock, from the Sands Funeral Chapel, Rev. J. G. Inkster will officiate. Interment will be made in Ross Bay Cemetery.

WAR IN VAIN UNLESS ALL WORK, SAVE AND GIVE UP LUXURIES

(Continued from page 2.)

"You all know," Sir Robert concluded, "that in building one of the great bridges across the Thames, it was found that the two sections of the structure just failed to meet, and it was necessary to put fire under them in order that they could be expanded to the proper distance. That is exactly the situation in the world to-day. We are going to have a very, very hard time to make ends meet. We shall have to keep the fire of patriotism, the fires of service, the fires of sacrifice burning until we have a bridge over which the world may walk into that land of vision of which made our war victory possible."

Premier in Accord.

"The people of Canada, of British Columbia, and of Victoria do not realize the danger that confronts us," Premier Oliver warned the club, in moving the vote of thanks to Sir Robert. "We need to hear more of the words such as the Governor of the Hudson's Bay Company has spoken, words which show that he is considering the welfare of the future, not the expediency of the moment. Governments to-day are forced to make expenditures not productive enough to justify them. The Provincial Government has had to borrow money to pander to the selfishness of the people and their desire for luxury! Unless we are prepared to support our Governments in confining themselves to essential expenditures we are going to march in the face of a danger that easily may pass us into disaster."

Mayor Porter, who seconded the Hudson's Bay Company when he came to Canada, and though his Worship had known large numbers of company employees he had never, he said, found one who held anything but the highest regard for it. Expressing the appreciation of the city of Sir Robert's announcement of the early opening of the Hudson's Bay Company's store here, the Mayor assured the Governor that the people of Victoria fully realized the conditions which had necessitated the postponement of this event so long.

A Great History.

"The history of the Hudson's Bay Company is largely the history of Western Canada," declared President John Cochrane, introducing the speaker of the day. "What a lure and challenge to the adventurers of our British race, were presented, 250 years ago, by the undiscovered resources and opportunities of that vast region extending from Hudson's Bay to the Pacific Ocean."

"And with what courage and determination that challenge was accepted, the same courage and determination which carried our British race into every country on the globe, which have enabled us, more than any other nation, to assume and to discharge the responsibilities of the white man's burden, and have inspired us to extend the freedom of British institutions, the world around."

"While the adventure, inseparable from the undertaking was recognized in the title of incorporation, the paramount object of the Company was the development of a profitable trade in furs and other commodities in the vast territory secured to it exclusively under the Royal charter. "This trade development necessarily involved the discovery of the country and the establishment of trading posts at convenient points, to properly handle the immense traffic which ultimately resulted."

"In these activities, the Company exemplified those commercial principles which have made British commercial sagacity universally respected, have made British shipping the carrier of the world's sea-borne commerce and have established London as the commercial and financial centre of the world."

Far-Reaching Powers.

"The Royal Charter conferred upon the Company extraordinary and far-reaching powers, powers, which perhaps no government of the present day would confer, but which, for the exploration, development and administration of a vast unknown territory, distant thousands of miles from the centre of authority, were deemed absolutely essential."

"The just administration of such extensive powers, is a tribute to the wisdom of the executive officers of the Company, during its long career. "It is a well-known fact that, when the boundary line between Canada and the United States of America was under consideration, the operations of the Hudson's Bay Company upon the Pacific Coast were a vital factor in defeating the contention of the United States that the boundary should be established at 54 deg., 40 min. North, the most southern point of Alaska, a contention which, if successful, would have effectively excluded Canada from free access to the Pacific Ocean."

"The grasp which the Company, under its Charter, had secured upon the sphere of its operations, was instrumental in saving this vast section of the North American Continent to Canada and to the British Empire."

Victoria's Beginning.

"This city, in which we are gathered to-day is a direct product of Hudson's Bay Company activity. When the international boundary line between Canada and the United States was finally settled upon the 49th parallel of latitude, the Company withdrew from southern points and Chief Factor James Douglas had already, in the year 1842, selected the site of the present city of Victoria as the location of the Company's future trading depot on the Coast. As Victorians, therefore, we are peculiarly gratified to have as our guest on this occasion, the present Governor of the Hudson's Bay Company."

"While the Hudson's Bay Company does not now exercise that political power which became its prerogative at incorporation, 250 years ago, it is at present perhaps the greatest commercial organization in Western Canada and its future is undoubtedly assured, if its activities continue to be controlled by that spirit of courage, enterprise and fair-dealing, which has enabled the Company to achieve such remarkable success and to render such signal service to Canada and the British Empire."

THE REAL CAUSE OF RHEUMATISM

Source of Ailment Shown By Effectiveness of Remedies Which Act Directly on the Blood

Rheumatism is a disease which, in any form, cannot be called a "fixed" disease. It attacks one part of the system to-day and another to-morrow, is acute this week and then breaks out again in intense form in another part of the body the following week. Unless attention is given to it, the disease becomes chronic and results in the crippling of parts of the body.

The manner in which rheumatism travels from spot to spot in the body bears out the belief which has ample medical support to the effect that the source of the trouble is the presence of impurities in the blood. These impurities lodge in the joints, the muscles establish themselves in various organs and one form or another of rheumatism is developed.

Bearing in mind that rheumatism is a blood disease, no treatment can be offered which is superior to herbs. And it may be stated that the herb principles which give relief which is almost miraculous in effect are to be found in Wonder Health Restorer, a remedy now offered throughout British Columbia. In the booklet "The Road to Health," a copy of which may be obtained at most drug stores, are enumerated many cases. Among these is that of Mrs. Yount, residing at the Abbotsford Hotel, Vancouver. This lady has been taking the remedy for a short time but she declares was above her highest expectations. The case of Mrs. Yount is only one of many.

No person afflicted with rheumatism should despair of relief until they have tried Wonder Health Restorer. It acts directly on the blood, freeing it of impurities. By the blood flow the medicinal properties of the herbs are carried to every part of the body. Where rheumatism exists, it soothes, soothes and healing power is manifested such as can be obtained by no other treatment. Scores of cases, right here in British Columbia, can be given as evidence.

Wonder Health Restorer is offered for sale in Victoria at Ivel's Pharmacy, and also at most drug stores throughout the Province. If your druggist can't supply you with the remedy or literature concerning it, write direct to the Distributors, The W. J. Carter-Byr Co., 446 Hillside Avenue, Victoria (Phone 6950).

POLICE TO GUARD CROWD FROM DANGER

Automobile dealers, under their president, Carleton H. W. Willis, and most of the racing drivers who will live in the city for the next few days at the Willows to-morrow met at the Dominion Hotel at luncheon to-day and fixed the final details for races. General P. Clark, Jack Rithel, official starter; W. H. Wilkerson, timekeeper and H. N. Fynn, secretary of the meet, led in formulating plans to suit the department of the police.

It was decided that all cars and drivers and officials must be in their places by 11 o'clock. The races will start about 2:15 o'clock. President Willis announced that although the decorated car competition in the parade to-morrow morning at 11 o'clock has been cancelled, because of the extensive preparations being made for the Hudson's Bay Company's pageant on Monday, all racing machines with drivers will parade through the principal streets. Representative cars from all leading automobile houses will also be in the parade.

Send For New Engine. One of the George Lark cars did not come up to the preliminary tests to-day. It was shipped back to Seattle on the 4:30 o'clock boat. A new engine is ready to be dropped into it and it will return on the midnight boat, arriving early to-morrow morning.

It was decided that there will be no delays between races, so that the meet will be over early. It was also decided that if a car throws a tire it must go into the pit to change unless it is three laps before the finish. Then the driver will have to finish.

Carleton H. Willis announced that the famous Jack Ross, \$1,000 challenge cheque which had been secretly removed from the possession of Alex Stewart late last night, had fallen into the hands of the police. The cheque is being destroyed by officials of the meet, as officials are frowning on gambling in connection with so dangerous a sport as automobile racing.

It was also announced that Oak Bay and City police will be on hand to confine the crowds to the grandstand, so that nobody will be killed when a car tears over the fence and out of bounds. No one will be allowed in the centre of the field.

Lieut. Webb is to be in charge of the megaphone and the handling of small boys. It is likely that all boys will be herded in the bleachers.

Officials of the Association in charge of the function are: C. H. Willis, president; H. A. Fynn, secretary; George W. Lillie, treasurer; Thomas Pilmley, R. A. Playfair, Robert J. Jameson, Walter Revercomb, H. A. Davie.

All Tennis and "Fleet Foot" Rubber-sole Shoes at Very Special Prices.

F. A. McDIARMID RETURNS TO ATTACK

Further Amplifies Position as Solicitor of Union of Municipalities

F. A. McDiarmid, Solicitor for the Union of B. C. Municipalities, in a letter to the City Council, charges Alderman Sargent with a change of heart in his stand on the recent break between Victoria and the Union.

Mr. McDiarmid's letter to the Council is in part as follows:

No Action Taken.
"I have the City Clerk's letter stating that my protest against your action in basing your resolution to retire from the Union on my holding the office of Parliamentary Agent for the Union had been received and filed—no action taken.

"Your expressed desire is equivalent to expressing a desire for the abolition of the office. No solicitor would act for the Union on a retainer such as Victoria proposes—\$500 per year—\$40 per month, and do no other municipal business, unless the office was made attractive in other ways.

"Who would benefit by the Union not being represented? The large corporations in the main. Just now the B. C. Telephone Company is chafing over the Union's action in forcing legislation at Ottawa placing them under the jurisdiction of the Railway Board, and they can get no rates approved until the Union has been notified and heard. The C. P. R. is objecting strenuously against the Union's successful fight last year to raise their taxation. The B. C. Electric blames me and the Union as being the cause of raising their taxation \$75,000 per year."

Mr. McDiarmid then comments at length on Alderman Sargent's position as an alderman, and as a rate-payer in the Denman Street by-law adjustment bill, which was thrown out by a committee of the Legislature.

NEWS AND NOTES OF THE MINES

Lardo Properties.

Clarence Marsh, of Spokane, secretary treasurer of the Nelson Mining & Development Company has been visiting the company's properties during last week, and reports to The Nelson News that all is in order for active development in their Lardo properties, the Whitewater group and Comstock group on Cascade Creek also on the Zintcon properties near Sandon.

A contract has been let for a nine-mile wagon road to the Cascade Creek leases and a mine crew engaged to prosecute development as soon as the snow clears sufficiently. As soon as the wagon road is completed ore shipments will start.

There is a good mill site on the Comstock leases and proposals to erect a mill are under consideration. The Zintcon property is in rich silver-lead, latent assays running up to 600 ounces silver, while in addition to these high values a considerable quantity of good milling ore is exposed.

Mr. Marsh is also interested in the Gold Cure mine, six claims situated on the South Fork of Kaslo, adjoining the Gibson leases and the same district as the Silver Bell and Index. A considerable amount of ore has been shipped from this mine.

It is intended to start developing at once and to follow the original idea of crosscutting for the old ore sheet opening up both north and south. Values show 174 ounces of silver and 38 per cent lead, equal to

\$50 PRIZE

We want six scenic Victoria pictures taken by amateurs, and will pay the above sum in three prizes of \$25.00, \$15.00 and \$10.00 for the best offered. To be judged by the Rotary or Kiwanis Club. Printing to be done by us. Entries by number only. No names.

OPENING DAY

Victoria's New "Owl" Drug Store Opens SATURDAY, MAY 22

Quite a number of people have told us that this store is the equal of, if not superior to, any drug store in the Province. We ask you to form your own opinion. The fitting up was done entirely by Victorians. This is as it should be and we wish you to know that the following firms did the work and supplied the materials:

- | | |
|---|---|
| Structural Steel—Evans, Coleman & Evans. | Fixtures—Canadian Western Woodworkers, Ltd. |
| Lumber—Cameron Lumber Co., Ltd. | Decorations—Mellor Bros., Ltd. |
| Hardware—Watson & MacGregor, Walter S. Fraser Co. | Electric Fittings—Carter Electric Co. |
| Alterations—Parfitt Brothers. | Sign Work—Fred Mellor; B. C. Sheet Metal Works. |
| Awnings—J. Elrick. | Furnishings—D. Spencer, Ltd. |
| Show Cases—J. H. Dickson. | Show Cards—W. A. Blake. |

Architect—J. C. M. Keith.

Every article in the store is absolutely new and the stock is as complete as could be under present conditions.

Prescriptions a Specialty.

VANCOUVER ISLAND NEWS

Prohibition Address.

Nanaimo: At a well-attended meeting in the Good Templar Hall Wednesday evening addresses were delivered on the prohibition situation by Messrs. Allen and McKinnon and Rev. Dr. Unsworth. William Waugh was in the chair and a musical programme was given by W. Manson, Messrs. Allen and McKinnon and others, after which a social half-hour was spent.

Commences Duties.

Duncan: City Constable Lancelot Dawkin began his duties in Duncan last Monday. He was appointed to the vacant position by the Police Commissioners last week.

He was born in Birmingham, England, and, with his parents, came to Canada twenty years ago. He has had previous experience in police work and was for a time connected with the fire department in Victoria, from which city he comes here with his wife and young daughter—Cowan Leader.

Nanaimo Spring Assizes.

Nanaimo: After bringing in their report on the two cases presented to it, the Grand Jury made the following presentation to the Assize Court: To the Honorable Justice Gregory, Supreme Court of British Columbia, Nanaimo, B. C.

Your Lordship—We, the undersigned, constituting the Grand Jury of the Spring Assizes, now being presided over by you at Nanaimo, B. C., having duly terminated our labors in Court, now respectfully submit, by way of presentment, that having fully discussed the advisability of inspecting the public institutions of Nanaimo and district, and having ascertained, during such discussion, that the members of this Grand Jury already possess an intimate knowledge of the present conditions of, and the various schemes of improvements now under way and in course of being undertaken in connection with, the aforesaid institutions, hereby express their conviction that in all such instances Nanaimo is steadily improving and extending her equipment and staffs to the end of satisfying the public of this rapidly growing district efficiently. We have, therefore, concluded that, on this occasion no benefits will result to the public from an institutional inspection which we might undertake, and we have accordingly refrained from any such visitations.

We, the undersigned members of the Grand Jury aforementioned, also respectfully tender to Your Lordship our sincere thanks for, and appreciation of, your address to us which detailed the powers, prerogatives, and duties of a Grand Jury, the knowledge of which assisted us very materially in our labors in Court.

Respectfully submitted, with the hope that we may be considered in order. We most humbly beg to remain your obedient servants, D. Stephenson, foreman.

BRIEF LOCALS

George Bridge Repairs.—The George Bridge will be sufficiently repaired to permit of pedestrian traffic on May 24, according to a report which Engineer Mile made to the Saanich Council last night.

Will Be in Parade.—The Saanich Council will be present as a body in the Hudson's Bay Company's anniversary parade on May 24, last night accepting a warm invitation from C. H. French.

A Slim Attendance.—The seats at the Saanich Council table usually occupied by Councillors Brooks and Graham were vacant last night. The business being concluded at 10.15 o'clock, amid general congratulations.

To Lessen Flooding.—William Hipwood complained last night to the Saanich Council regarding flooding of his lands near Cedar Hill Road, claiming that culverts under the roadways are small. The Council decided to have the waterways cleared.

Must Move Fence.—H. H. Grist complained last night to the Saanich Council that a fence owned by Grant & Chandler is located so far over the line of Beaver Lake Road as to narrow the roadway to the danger point. The Council will order the fence to be moved back.

Saanich Has Rights.—The fence which Mr. Graves has erected on the right of way of the East Saanich Road will have to be moved back, the Saanich Council instructing the Municipal Solicitor to notify Mr. Graves, who has hitherto declined to act on the Engineer's request.

Claims Road is Dangerous.—On behalf of Ward One Ratepayers, T. G. Marchant last night wrote the Saanich Council regarding the present condition of Mt. Tolmie Road, which he claimed to be dangerous. The Council referred the matter to the Engineer and the Ward's councillor, with power to act.

"Everybody Wants Crossing."—In a discussion in the Saanich Council last night regarding crossing from roadways to private property, it was commented that until recently the municipality paid the whole cost and is now only paying a portion, generally one-half, many being put in lately.

Patrol Hits Lamp Post.—Endeavoring to steer clear of another automobile which, turning from Broughton Street into Douglas Street, crossed the fronted him suddenly, Police Patrol Driver Wilkinson was forced yesterday afternoon to run the patrol up on the Douglas Street sidewalk and into a lamp post. The patrol wagon was considerably damaged.

Selected Examining Centre.—Grade school examinations—prior to the summer closing—are to be held this year at the South Park School, it is announced. The school board is retaining the staff of the South Park School to supervise the examinations. The classes will be closed one week ahead of the other schools.

Paraded Yesterday.—Headed by the five and drum band of the Collegiate School the children of the Oak Bay Schools yesterday paraded the downtown streets in a propagandist parade for the Oak Bay swimming bath project. Formed at the Central School grounds, the children distributing descriptive pamphlets of the proposed Oak Bay bath.

Storm in a Teacup.—Councillors Dooley and Clark exchanged hot shot across Saanich Council board last night over the grant of \$5,000 from the Provincial Government for the West Road paving. Councillor Clark considered the use of a portion on other main roads to be permissible. Councillor Dooley demurred with warmth, his claim that business time was being wasted by useless discussion eliciting a hot retort.

A Solitary Warrior.—"Ajax Defying the Lightning" has been outdone in Saanich. Councillor Henderson last night stood up against a terrific storm in the Saanich Council chamber when, after business was concluded, he provoked the wrath of Reeves Watson, and the other lights of Saanich municipal politics, by maintaining that the city fathers of Victoria had been acting in good faith in the Elk Lake discussions which broke up the Beaches and Parks Committee. His persistent advocacy of the Victoria point of view produced no noticeable effect, however, the informal discussion ending with Reeves Watson's dictum, "They were trying to put a sharp spear over on us, and we wouldn't stand for it."

Shows His Murillo Masterpiece.

"St. John and the Lamb," an original work of the great Murillo, the Spanish painter, and now the treasure of W. H. Eve, of Oak Bay, has been added to the loan exhibition of the Provincial Arts and Industrial Institute of British Columbia in the Provincial Library. Next Tuesday evening at 8 o'clock, Mr. Eve will speak on "Old Masters," and tell of the rarity of Murillo's, even in Europe. On this continent, he says, there are less than five altogether. Mr. Sanders will speak on Oriental pottery.

Police Court.—In the police court today Harry Hubbard, charged with speeding his motor cycle on Douglas Street at a greater rate than fifteen miles an hour was fined \$10 in spite of a spirited defence. John W. Earp, charged with keeping liquor for sale in contravention to the Prohibition Act, pleaded not guilty, and was remanded until May 26. Lee Duck Wah and Yung Lee, charged with selling American tobacco without the Canadian stamp necessary, were defended by Jack Clay, who secured a remand.

Dangerous Period Avoided.—In spite of the extreme winds of the last twenty-four hours, the fire department has not been once called out. With the high wind last night, such fires might be very serious in aspect.

Death Due to Gas.—An inquest on the body of the late Mrs. Jackman, who was found dead in October Mansions recently, was held before Coroner Hart today at the B. C. Funeral Chapel. The jury brought in a verdict of death due to gas poisoning.

Hindoo Heavily Fined.—Found guilty of actions contrary to the moral code, likely to prejudice the minds of jurors present, Bishan Singh, a Hindoo, was today fined \$100 in the Juvenile Court under Magistrate Jay. The accused was roundly scored by the prosecution, and the magistrate for his offence.

In County Court.—The case of Beal vs. Fletcher Bros, appeared in the County Court this morning before His Honor Judge Lampman. G. F. Beal laid suit against the music company for commission in connection with the sale of a piano. The action was dismissed.

FINE DRUG STORE OPENS TO-MORROW

Victoria Owl Drug Company Invites Inspection of Handsome Quarters

One of the best appointed drug stores and dispensaries in Victoria will be opened to-morrow morning, when the Victoria Owl Drug Company will invite the public to inspect their handsome quarters on the corner of Johnson Street and Douglas Street.

This portion of the Odd Fellows Block has been leased for several years, and for some weeks past a large number of workmen have been steadily at work making over the three old stores hitherto occupying the site.

The store is remarkably light and airy, and the decorative scheme of cream panelling and plate glass mirrors well sets off the locally manufactured handsome mahogany and plate glass showcases and their contents.

Careful consideration has been given the arrangements of the store, the goods being so arranged in the thousand feet of floor space available as to permit of speedy service. This idea of quick service has also been elaborated in the arrangement of the prescription department, the intention of Manager A. F. Thomas being to make a specialty of this section of the business. Experience having shown that clients desiring prescriptions are invariably in need of speedy work, the Owl store has been designed to enable four pharmacists to work at one time should it be necessary.

Mr. Thomas has been in the drug business in Victoria for some years past and the Victoria Owl Drug Company is an entirely local concern. In the creation of the new and handsome addition to the downtown business community they have made it a principle to install Victoria-made fixtures in every line in which they have been available.

DEMONS OF SPEED FOR WORLD'S RECORD HERE; \$1,000 CHEQUE MISSING

(Continued from page 1.)

\$1,000 Cheque Gone.

Alarms were sent out early to-day when reports spread that the \$1,000 challenge cheque signed by Jack Ross, which has been held by Alex. Stewart, had been stolen. Speed demons who have been planning to capture the cheque by their records at the track to-morrow, became wildly excited when they heard that the cheque had disappeared.

Mr. Stewart explained that he took the cheque to the Canadian Bank of Commerce early yesterday, and had it properly certified so that there would be no less uncertainty to irritate the highly strung nerves of the temperamental drivers while they were under their special nerve treatment.

"The \$1,000 cheque was found to be good," Mr. Stewart said. "The Times" saw that it was properly stamped and put it in my cheque wallet along with a lot of other cheques and valuable papers. I returned home last night in my new roadster but did not open the wallet. This morning I found that the \$1,000 cheque had disappeared with a few of the other cheques disarranged.

On Trail of \$1,000.

The theory those hunting for the cheque are working on is that when it became known that Mr. Stewart had the cheque for the large sum of money and that he had had it certified, some one who was anxious to get it and thought it would be easy to cash followed him and removed it from his wallet while he was in his room disarranged to-day, but thought it had been done by the high wind last night. There will be no chance now, however, to cash the \$1,000 cheque at the bank or pass it off on any store, because of the publicity that has been given to its disappearance, those connected with the incident declare.

Twenty-Mile Event.

The most sensational event of the afternoon after the trial to break the world's record for a mile, will be the twenty-mile race, free-for-all, in which twelve cars will start out and race until they are either declared the winner, are beaten, smashed or get into trouble.

Harry Whitney Treat, millionaire sportsman of Seattle, has come over to act as starter. Jack Alexander Rithet, of Victoria, is to be referee. Other officials are: judges, Genral R. P. Clark, president, J. O. Cameron, J. Ernest Eves, James H. Beatty, and Robert J. Jameson; chief timer, W. H. Wilkerson; technical committee, H. H. Davis, Walter Revcomb and James Bennie.

The complete programme of the races, with cars and drivers, was issued as follows to-day:

Event No. 1—Free-for-all. Mile against time. (Under 1.04.) \$50 to the car making the fastest mile in the event. Hayes Special, Ira Hayes; Special, Bill Giddings; Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell; Kincaid Special, Archie Kincaid; Romano Special, Chas. Latta.

Event No. 2—Non-stock, for cars of 200 cubic inch displacement or over. Five miles. Hayes Special, Ira Hayes; Stutz Special, James Healey; Stutz Special, Gus Duray; Stutz Special, Jack Ross; Erickson Special, Carl Erickson; Lott Special, Bill Giddings; Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell; Kincaid Special, Archie Kincaid; Romano Special, Chas. Latta.

Event No. 3—Non-stock, for cars of 200 cubic inch displacement or under. Eight miles. Butters Special, Jas. Butters; Oh No Special, Bill Giddings; Romano Special, Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell; Kincaid Special, Archie Kincaid; Romano Special, Chas. Latta.

Event No. 4—Non-stock, for cars of 200 cubic inch displacement or over. Eight miles. Hayes Special, Ira Hayes; Stutz Special, James Healey; Stutz Special, Gus Duray; Stutz Special, Jack Ross; Erickson Special, Carl Erickson; Lott Special, Bill Giddings; Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell; Kincaid Special, Archie Kincaid; Romano Special, Chas. Latta.

Event No. 5—Non-stock, for cars of 200 cubic inch displacement or under. Eight miles. Butters Special, Jas. Butters; Oh No Special, Bill Giddings; Romano Special, Chas. Latta; Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell.

Event No. 6—Free-for-all. Victoria International event non-stock. Twenty miles. Hayes Special, Ira Hayes; Butters Special, Jas. Butters; Oh No Special, Bill Giddings; Stutz Special, Jas. Healey; Stutz Special, Gus Duray; Stutz Special, Jack Ross; Erickson Special, Carl Erickson; Lott Special, Bill Giddings; Pepp Special, G. W. Stewart; Ford Special, W. R. McDonnell; Kincaid Special, Archie Kincaid; Romano Special, Chas. Latta.

At the meeting six directors for a three-year term were elected.

80-90—East side Douglas, between Caledonia and Discovery
90-100—East side Douglas, between Discovery and Pembroke
100-110—East side Douglas, between Pembroke and Princess
110-120—East side Douglas, between Pembroke and Queens

The parade will form up at 10.30 sharp, and is expected to get underway at 11 o'clock. The officials of the Hudson's Bay Company has asked that all participating will be in their stations on time, and Chief Langley has instructions to lead off at the hour appointed—delinquents to be left out of the pageant.

ADDRESSING MEETING

CHARLES W. BISHOP

Considerable interest is being taken in the annual meeting of the Y. M. C. A., which will be held this evening at 6.30 o'clock in the association building. The directors, officers and supporters of the "Y" will gather around the festive board.

The main feature of the evening will be an address by Charles W. Bishop, of Toronto, National General Secretary of the Y. M. C. A., who is the main force in the association's life in Canada. During the war Mr. Bishop was one of the greatest workers of the "Y" and he was responsible for the organization of not only the work in Canada among the soldiers, but also in England and France. Mr. Bishop's address will be of considerable public interest.

At the meeting six directors for a three-year term were elected.

IS VICE-PRESIDENT

Captain Aitken Is B. C. Head of Hundred Thousand Club.

Captain A. M. Aitken has received word that he has won the distinction of being appointed vice-president for British Columbia of the Hundred Thousand Club of the Great West Life Insurance Company. The vice-presidencies of the Club are awarded to the agent in each Province of the Dominion who writes the largest amount of insurance for his Province. As it is necessary to write \$100,000 worth of insurance to qualify for ordinary membership in the Club, it is easily seen how active the vice-presidents must be. Captain Aitken was successful last year in writing several times the amount necessary for membership.

570 JOHNSON STREET

FOUL TIPS

Bill Leard was banished from the game for disputing a decision in the third inning. Leard's argument had no effect on the umpire, but his absence from the diamond was felt by the team.

Lefty Lawson had a good reputation while on the road, but he has lost it owing to his two poor starts here. Vancouver got five hits off him in the first inning.

Kelly and Robke looked about as good as anything Leard has put in the box here. Kelly was thrown down by the infield. Robke got by in the last inning in good style. These lads

may get a chance to start a game one of these days.

Carman made a beautiful peg from right field to third base and cut off Messner. Carman certainly has a great arm on him. He is doing a lot of useful work in right field.

There doesn't appear to be much wrong with Cy Forsythe's eyes. He got four hits in five trips to the plate, one of which went out of the lot.

Fehr let the Capitals down with but seven hits and had ten strikeouts to his credit, but he was a little erratic at times and got himself into some bad holes.

Hinkle has had a lot of hard luck in his hitting this week. Yesterday afternoon he got a single, which went over second base as fast as a bullet and scored two runs.

Ninth Inning Rally Did Not Last Long Enough

Capitals Tried to Redeem Themselves For Bad Fielding; Brown Just Fell Short of Putting Ball Out of Lot With Two Men on Bases; Lawson Was Bad.

Vancouver, 12; Victoria, 8.

After booting away the game in the early innings the Capitals staged a rally in the ninth, drove Lefty Fehr to the showers and if a certain thing had only happened there might have been a different story to tell. "If," the little word with the big and varied meaning which figures so prominently in the narration of the ups and downs of daily life, is quite often misused to excuse a defeat or misfortune and show what might have happened. But yesterday this little "if" had significance and has a right to spring into the dazzling glare of sporting publicity.

If "Toots" Brown had only put another ounce of weight into his drive, or if the right field fence had been six feet farther away, Bob Brown would have looked at life from an untroubled point of view. Lefty was not with Brown's club, and when Cy Forsythe gathered in his long fly to the fence the curtain dropped on a game that furnished few thrills for the fans until the Capitals took up their bats for the final drive for tallies.

The Great Rally.

The ninth innings as far as Victoria was concerned looked something like this. Carman drew a pass and Zienke struck out for the third time in the game. Then the youthful Dempsey lifted one over the fence for a round-trip. Bob Brown figured the Fehr had gone far enough so beckoned him to meet with defeat the previous day. Cooper celebrated his appearance by giving Elliott a base on balls. Kelley sent a scorching single over second, and Elliott pulled up at third. Robke walked and Morton was sent in to bat for Young. Harry slammed one at Scott, who fumbled it, and Elliott scored. Jimmie Church hit a fly that made Forsythe go back to the fence to spear.

With the bases full Brown trotted to the plate. Cooper got a wild pitch out of his system, and Kelly scored. Brown took two strikes, and caught the third ball fair on the nose. It went to right field. The fans thought it was a home-run, but Dame Fortune decreed that the ball must fall inside. Forsythe caught it right against the boards. Brown also had a chance to be a hero in the eighth. The bases were loaded, but he grounded out.

Bad Day in Field.

Victoria muffed things up terribly in the eighth innings. The Beavers chased in four runs on one hit. In the fifth the Vancouver got four on two home-runs, one single and an error. Lawson had nothing yesterday to recommend him for any great popularity. He was touched up for five hits and three runs in the first inning, and in the fifth two home-runs and a single accounted for three runs. Kelley relieved him, and although he only gave one hit in two and one-third innings, four runs were scored on him through the errors of the fielders. Kelly gave way in the eighth for a pinch-hitter, and Robke worked the last innings. Four men faced him, one of whom got a single.

 San Francisco, May 21.—Jimmy Darcy, of Portland, won over Lee

INTERESTING CRICKET MATCHES TO-MORROW

Albions and Victoria Will Play For Their First Win; Two Other Games

(By Veritas.)

To-morrow's cricket card calls for the following games to be played in the Virtue Cup competition: Albions v. Victoria at Beacon Hill Park. Garrison v. Incogs at Work Point Ground.

Five C's v. Army and Navy Veterans, at Jubilee Hospital. The game at Beacon Hill is expected to be the closest contest of the day. Both Albions and Victoria have yet to win their first game of the present season, and as both teams have men of first class calibre in their ranks an interesting match should be witnessed. The Victoria team this week will be minus the services of Harry Orchard, who has gone back East, and he will certainly be missed.

Another good game should be between the Garrison and the Incogs on the ground of the former. To date these teams have each played one game and won. On paper the Incogs appear to be the strongest aggregation, but the Garrison have a team that will make them go all the way for a win.

The remaining game between the Five C's and the Army and Navy Veterans is one that it is not safe to predict the result of. On the form displayed by each team so far this season, it might appear to be a foregone conclusion that the Five C's will win. However, there is nothing so uncertain as cricket, and as the Army and Navy are now better equipped, have had more practice and strengthened up some of the weak spots, it is altogether likely that they will make their more experienced opponents step lively.

The Congos game should be a bye this week, and are therefore idle. If the present weather continues during this week's games, the fielders will find their tasks far from pleasant.

The Teams.

The teams will be as follows: Victoria C. C.—D. L. Gillespie (captain), E. M. Gillespie, E. Gillespie, H. A. Tomalin, F. Smith, R. H. Vaughan, W. A. McAdam, Lethaby, A. F. Mitchell, F. J. Marshall and Stanier. Five C's—Edwards (captain), E.

V.A.S.C. WILL HOLD OPENING TO-MORROW

To-morrow afternoon at three o'clock the official opening of the V. A. S. Club-house will be held. The club-house is now at the new site on the Gorge and can be reached by the Gorge Bus.

A number of special features have been arranged for the afternoon. A cordial invitation is extended to all members and the executives of other swimming clubs to attend.

The V. A. S. C. is expecting a very fine season this year. Seven provincial championships were won by this club last year.

Quinton, Dean Quinton, Wilkinson, Winsloe, Hincek, Birch-Jones, Sutton, Rough, Payne and Sharp. Reserves—Gibson, R. V. Lea and A. Booth.

University Incogs—Wenman (captain), Sparks, Taylor, Lifton, Allen, Kinch, Tunnard, Hewitt, Tracey, Matthews and Verrall.

Army and Navy—T. A. Darker, C. P. Askey, J. Hillierby, L. B. Kent, H. J. Young, R. Turner, Geo. Leeming, G. Ford, G. W. E. Wharf, J. T. Rogers, G. Holden. Reserve, C. A. L. Poudrier.

Albion C. C.—Imay (captain), Wotton, Freeman, Jordan, Parsons, Lowe, Lowden, Hoggarth, Attwell, Bossum, Barclay.

CONGOS WIN.

The Congregational baseball team defeated the First Presbyterian team last evening at the Central Park by fourteen runs to thirteen. The teams are made up of boys under sixteen years of age.

If you want to get a real picture of misery take a look at a man who is waiting in the ladies' underwear department of a store while his wife is buying something.—Cincinnati Enquirer.

DECIDE LEADERS OF LEAGUE TO-NIGHT

Yarrows and the Colliers-Vets hook up in a ball game at the Stadium this evening at 6.30 o'clock which will decide the leadership in the city amateur league.

Eddie Brown, the little south-paw, who beat the Elks on Saturday last, will again be on the mound for Yarrows. He will be opposed by Alex. Strath.

This should be a very close tussle and will no doubt attract a large crowd, providing the weather is good.

Anderson, of Sacramento, in a four-round bout here last night. They are heavyweights.

SPORTING NEWS

World's Champions Get Another Crack Player

Bert Johnson Signs With Victoria and Will Play on Home; Team to Play Against New Westminster to Be Picked To-night; Great Game on Empire Day.

Another star stick-handler has thrown in his lot with the world's champions. Bert Johnson, who last year played inside home with Vancouver, is to wear a Victoria uniform this season and will be of great assistance to the home. Johnson is now employed in this city and has promised Manager Patrick that he will be available for all the championship games.

Johnson is a very fast man. Last season he was the most dangerous man on the Vancouver home, but owing to his lightness he had a lot of trouble getting through the heavier defences. He has added to his weight during the Winter and Spring and this will be of distinct advantage to him.

Replacing Feedham. For a time there was a lot of speculation as to who would replace Feedham, the sensational scorer of last season's team. This anxious question has now been set at rest by the appearance on the field of Johnson. He is a faster man than Feedham, but has not the same experience. However, it is quite possible that Johnson, working with a home that possesses as its main cog the rapid thinker Joe Painter, will become one of the most brilliant lights in amateur lacrosse.

Lester Patrick is quite confident that the Mann Cup will not leave Vancouver Island this year. "I tell you we are going to have the fastest lacrosse team that Victoria has ever seen," remarked the astute manager this morning. "The home this season will be a revelation and our defence will be just as strong as last year."

Picking Team To-night. On Monday afternoon at 3.30 o'clock at the stadium the Victoria team will have its first test of the season when it meets New Westminster. It is expected that this game will attract one of the largest crowds that lacrosse has ever had in Victoria. The team is to work out to-night at the Royal Athletic Park.

Following the practice the selection committee will pick the team which is to play on Empire Day. There are about twenty-five candidates for places on the team and sixteen will be picked. All children under sixteen years of age will be admitted free to the game. The league is anxious to popularize the national game amongst the youngsters so that there will be no scarcity of material in the years to come.

Playing With Vancouver. Frank Sweeney, the heavyweight defence man last year's champions, and Dutch Clegg, who paired with Sweeney, will play with Vancouver this season. The Victoria boys know how to beat big Frank but they may find Dutch a hard nut to crack.

WEIRD FINISH TO A LONG BALL GAME

White Sox Scored Eight Runs in 16th Innings and Beat Washington

American League.

Washington, May 21.—Chicago defeated Washington 13 to 5 in a sixteen-inning game yesterday. Both teams scored twice in the fifteenth. The visitors registered eight runs in the final inning on two triples, a double, two singles and four errors.

R. H. E.
Chicago 13 17 1
Washington 5 13 9

Batteries—Faber and Schalk; Farney, Erickson, Johnson and Garity.

Indians Going Strong.

Philadelphia, May 21.—Cleveland turned what had been a close battle into a walkover by scoring five runs in the ninth yesterday, making the final score 10 to 4.

R. H. E.
Cleveland 10 14 1
Philadelphia 4 10 2

Batteries—Bagby and O'Neill; Kinney and Perkins.

In Hole Over Errors.

New York, May 21.—New York defeated St. Louis 8 to 3 here yesterday in the first game of the series. Five New York runs were directly traceable to St. Louis errors. Quinn pitched a strong game for the Yankees, with the exception of the fourth inning, when St. Louis bunched three hits for two earned runs.

R. H. E.
St. Louis 3 9 5
New York 8 11 1

Batteries—Sotheron and Hillings; Quinn and Hannah.

Tigers Slip Again.

Boston, May 21.—Boston hit Leonard often and hard yesterday, winning from Detroit 6 to 0. Pennock held Detroit to six hits, two in the first inning being discounted by a fast double play on Veatch's grounder, McNally to Scott to McInnis, which retired the side.

R. H. E.
Detroit 0 6 1
Boston 6 11 0

Batteries—Leonard, Glazier and Woodall; Pennock and Walters.

National League.

Chicago, May 21.—Alexander won his eighth consecutive game yesterday when Chicago defeated New York 4 to 2. The visitors outthrew the locals but Chicago's hits were more timely. Fletcher, Giant's shortstop, was ordered out of the game by Umpire Rigler for discoloring the ball after he had argued with the umpire when called out on strikes.

R. H. E.
New York 2 10 2
Chicago 4 6 0

Batteries—Neph and Smith; Alexander and Killifer.

Phillies Lose Again.

St. Louis, May 21.—St. Louis made it two straight by defeating Philadelphia yesterday 6 to 4. Gallia made his first appearance in the National League and was removed after the fourth because of wildness. Sherdel, who relieved Jacobs and Betts, who displaced Gallia, did not allow a runner to reach first base.

R. H. E.
Philadelphia 4 7 1
St. Louis 6 6 1

Batteries—Gallia, Betts and Truesdler; Jacobs, Sherdel and Dilhoefer.

Ruether Blanks Dodgers.

Cincinnati, May 21.—Ruether held the Brooklyn batters safe and with perfect support shut out Brooklyn, 7 to 0. Smith was hit freely in the first six innings, and in the seventh gave way to Marquard, who was wild and ineffective. The Reds hit safely in every inning and every man on the team got at least one hit.

R. H. E.
Brooklyn 0 6 5
Cincinnati 7 15 0

Batteries—Smith, Marquard and Krueger; Ruether and Rariden.

Pirates Best Braves.

Pittsburgh, May 21.—Pittsburgh defeated Boston yesterday, 5 to 1. The visitors' run was the result of an error by Coston, followed by Maranville's three-bagger. The locals bunched their hits with Boston's misplays in the first, second and fourth innings. Bigbee's home run in the second scored three runs.

R. H. E.
Boston 1 5 3
Pittsburgh 5 9 1

Batteries—Pillingham and O'Neill; Adams and Schmidt.

Coast League.

At Los Angeles—R. H. E.
Seattle 3 6 3
Los Angeles 0 7 0

Batteries—Siebold and Adams; Brown and Bassler.

At Salt Lake—R. H. E.
Vernon 1 20 1
Salt Lake 10 16 2

HOLIDAY EVENTS MAKE FINE LIST

Unexampled Attractions For Annual Festival of Victoria

May 24, always a holiday fittingly observed in this city, will this year present undreamed of attractions to the public. The 250th anniversary of the Hudson's Bay Company can only come once, and when it does arrive the company leave nothing to chance, but will stage an exhibition that will be remembered by many for a life time. The day will be opened with the wonderful pageant, which will take place at 11 o'clock, to be followed by sports at the Gorge, commencing at 3 o'clock. Always popular with the public the water carnival at the Gorge will this year out rival previous efforts. The Indian war entries are more numerous than ever before, and great competition is to be looked for in the kiootchman.

A banquet to which over 200 have been invited will take place at the Empress Hotel at 6.15 p. m., to be followed by band recitals and fireworks at the causeway at 8.15 p. m. The fireworks themselves will be one of the most noteworthy features of the day's attractions, some of the set pieces being truly elaborate and beautiful in effect.

A brilliant ball will close the wonders of the holiday at the Empress hotel, at which 1,000 will be the invited guests of the company. Spectacular films of the development of the Canadian Northwest will be displayed at the Royal Victoria during the afternoon and evening of both Monday and Tuesday, and even may be extended another few days as the demand for tickets has been far too heavy to meet in the performances arranged.

WATER SPORTS.

Gorge, 3 P. M.

The H. B. Company's Governor's launch will arrive at Point Ellice Bridge sharply at 2.45, where the following procession will commence: Launch—Band, in 1670 costumes; War Canoes—White, Nitinat; light blue, Clo-oo-oo; pink, Maitahat; red, Zaanstip (West Saanich); yellow, Quamichan; green, Khenipsen; dark blue, Kuper Island; blue and yellow, Zeanout (South Saanich); red and white, Nanaimo; green and white, Americans, No. 1; pink and yellow, Americans, No. 2; red and green, Clam-Clam, A. Litz.

IMPORTED CIGARS

Imported Cigars, so much enjoyed by the fastidious smoker, have increased so much in price as the result of the high cost of production, the comparative scarcity of the leaf due to the cultivation of sugar-cane in Cuba where formerly Cuban cigars had been grown, and the imposition of a heavy war-tax that in the interests of our customers, we have introduced a new domestic brand of rare quality and exceptional value.

SANCHEZ Y HAYA

is a genuine Havana Cigar, made in Canada from specially selected Havana tobacco by expert Cuban cigar-makers.

What is saved in the difference of duty between the finished article and the imported leaf represents the extra value offered. The superior quality should enhance our reputation.

We confidently recommend this brand to our customers as all that is claimed for it. WHY NOT TRY IT?

SEVEN BIG HORSE RACES AT TORONTO

Toronto, May 21.—There are seven races on Saturday's card at the Woodbine, none having a value of less than \$1,000, while the Minto stakes have \$2,000 added, the King's plate \$2,500 added, and two miles, has \$1,500 added.

CARPENTIER MUST DO BATTLE OR LOSE OUT

New York, May 21.—Georges Carpentier will have no reason to regret his trip to America if he does not get into the ring with Jack Dempsey. Without ever pulling on a fighting glove Georges will earn during the next few months more than twice as much as he earned during his entire ring career in Europe. Before Georges quit the ring in 1914 to help defend his country, he had earned a little more than \$100,000. In 1909 he earned the paltry sum of \$184; in 1910, \$460; in 1911, \$6,600; in 1912, \$35,000; in 1913, \$44,000, and in 1914, \$32,000.

himself like any other freak attraction beyond reach of a padded fist, or has he come to fight—to fight the best we have to offer, as all Americans expect him to do? "If the French champion expects to harvest his riches by vaudeville and circus performances and return home still enjoying the respect of the nation that welcomed him so cordially but a short time ago, he is doomed to disappointment. "We have heard much of the valor of Carpentier. The sorry plight of our own champion heightened our appreciation of these qualities in the idol of France. America stands ready to-day to cheer itself blue in the face for Carpentier if he will fight. Even should he meet Dempsey we dare say a large slice of the populace would support the Frenchman. But popularity is a fickle thing. If Carpentier continues to ignore the demand for his appearance in the ring the whole structure of his prestige will tumble about him. There are signs of it to-day. "It is probable, of course, that Carpentier has been the victim of unsound advice. Many of our own pugilists have suffered because they heeded the instructions of over-shrewd young men who sought to 'manage' them. The predicament of Dempsey is a case in point."

Semi-ready Tailored Clothes will fit you!

A portion of the physique, type Chart, depicting the varied style of designs used in the Semi-ready Tailor Shops.

There's a Semi-ready Suit made to fit perfectly: Every man

Of every height from 5 feet to 6 feet 6
Of every breast from 32 to 48
Of every shape of shoulders
Of every style of stance—and 30 models for every size and physique type.

We fit the hard to fit as well as the perfect figure

There are seventeen new Spring suit models in Semi-ready Tailoring chiefly for young men of fifty and under. The more conservative business suits and garments for morning and evening wear do not show the same variety of expression as these seventeen models. We emphasize the newer designs because they show that the best Canadian tailoring house can produce finer artistic styles than the American houses—smarter and more distinctive models. These styles were shown at the International Designs display of new models, and attracted the favourable attention of the best authorities on Styles for Men. Every Semi-ready Suit is designed to fit—to fit perfectly—there is a type for every man—in his exact size. We can reproduce any model in any cloth pattern in 4 days to special order.

Every Suit we sell we guarantee to be a genuine Semi-ready

DOMINION

When Mark Twain wrote "Huckleberry Finn" he penned this introduction:

"Persons attempting to find a motive in this narrative will be prosecuted; persons attempting to find a moral in it will be banished; persons attempting to find a plot in it will be shot."

Whether readers find a motive, moral, or plot in it matters little. Millions of them have discovered in it wholesome entertainment and unadulterated joy. To them will come as welcome news the announcement that a great photoplay has been made of "Huckleberry Finn" and that it is showing at the Dominion Theatre. It is declared that the spirit of Mark Twain's narrative has been wholly reproduced on the screen.

you confined in a private sanitarium, under the pretext that your mind was unbalanced; if the car was ordered and the nurse on hand; and if your room was already waiting for you, what would you do? Did you ever meet the condition in which a nurse would say you were insane and you would try to prove your sanity? That is one of the situations that confront Dorothy Gish in her latest Paramount picture, "Turning the Tables," which will be shown at the Variety Theatre to-day. In this case Dorothy meets it in a way that may work in some cases and not others. This time it resulted in her having the freedom of the grounds, being courted by the man she wanted to marry, and finally escaping. The above is but

one of the many situations that are said to make this picture one of the snappiest that Miss Gish has yet presented.

COLUMBIA

"Were you ever licked, Jack?" asked Director H. S. VanDyke of Jack Dempsey, world's champion heavyweight, who is the star of the Pathé serial, "Daredevil Jack," which will be seen at the Columbia Theatre this week. "You bet I was," answered the genial Jack, quickly, "and by a little fellow who hit me at the waist-line." "How was that?" asked the astonished director. "It was with the Sells-Floto circus when I was traveling with it last Summer," replied Jack. "Of course, I wanted to see everything the first night I arrived and I wandered over to a big scale where a 'guess-your-weight-for-a-dime' sign was displayed and at which a small clown presided. 'Get I can guess your weight,' said the little fellow. 'If I don't, I'll give you a dollar.' I smiled at him and, following his instructions, stepped up to the rail and leaned over. Before I knew it, that clown had administered several smart wallops. I was licked, all right." It proved to be Jack's initiation into circus life.

PANTAGES

With three acts in headline positions and a bill of strong supporting offerings, the current show of Pantages vaudeville is one of the most entertaining of the season. "You'd Be Surprised" is the largest aggregation of talent on the programme with a sprightly musical farce that makes a strong bid for popularity. The stage settings and costumes are especially appealing and the comedy and music of the offering is exceptionally good. Laurie Ordway, the second of the three headliners on the bill, is in a class by herself as a singing comedienne. She gives a song recital that is a gem of comedy, and quite different to the average vaudeville singing act. The third feature attractions is a neat casting act, offered by the Four Danubes, European casting models. Three other entertaining turns and a new instal-

ment of "The Adventures of Ruth" complete the bill.

ORPHEUM BILL

INCLUDES DELICACY

Amusement Feature "Last Night" Will Be Drawing Card

If the morning after were the night before, there would be no memories, which would be too bad if for no other reason than because it would deprive the authors and producers of "Last Night" of a reason for one of the merriest and most melodious musical comedy concoctions of the season.

"Last Night" which is one of the Orpheum bill this week, is the title of an amusement delicacy which has as its principal ingredient that excellent comedian, Earl Cavinaugh, who, assisted by Anna Francis and Earl Miller and seven congenial companions, succeed in making "Last Night" a pleasing recollection that will linger in the memory of theatre-goers indefinitely.

The building code for musical plays doesn't require a substantial plot, but the superstructure of fun, music, dance and principals must be the best. The building inspectors, who in this instance happen to be excellent comedians, have O. K.'d "Last Night" as a decidedly substantial structure.

There is a strong appeal to the eyes, ears and the risibles. There is a laugh, a tune or a step at every joint and these are spiced together with good taste and by master workmen.

As a charter actress without a peer Nellie V. Nichols, who appears to-night, Saturday matinee and night, confines her ability to character drawings in song and story.

The modern philosopher, as he is billed, Bert Hanlon, in eccentric singing, dancing and talking, will bring a world of joy. Besides being the author of his own material, Hanlon has written songs and stories for some of the leading lights of vaudeville and musical comedy.

Oliver Smith and company in "A Touch of Time" will provide the sketch of the week. The scene is placed in a handsomely furnished apartment in which a pearl necklace is responsible for most of the difficulties which beset the company.

A clever act in that billed by Werner and Amoros Trio known as "Love's Follies." Primarily these people are jugglers, but not in regular classification. Their performance is surrounded by Bohemian atmosphere, supplemented by some exceedingly good music and a bit of clever act.

Baxley and Porter, known as entertainers de luxe, all their own story in their billing.

FINE RECITAL

HEARD BY MANY

Mrs. Fahey Receives Enthusiastic Welcome From Victoria Audience

Victoria has long been proud of their fellow-citizen and gifted singer Winifred Lugin-Fahey. A fitting tribute was accorded her last evening when a big audience packed the Royal Victoria Theatre and enthusiastically greeted the western soprano in her exceptionally fine recital, her first concert here since Mrs. Fahey sang a few months ago before a large New York audience. Mrs. Fahey again selected an admirable programme, in fact she is one of the few singers who select a programme to attract "each and everyone." This time, for instance, in the five groups, some of the best and most attractive Italian and English songs, and a beautiful group of beautiful American novelties were included.

The recital opened with the superb aria "Il est doux et est bon," from Massenet's "Hirochka" and in this, with the Paggiacci number she distinguished herself in both coloratura and recitative. The group by request, including Dr. Arpa's "The Lass with the Delicate Air," which was daintily given, and "Call Her Nairne" (Lady Nairne), were especially happy and well received.

"There is No Death" (O'Hara), and the two numbers of the last group, Cadman's "Song of the Robin Woman," and "At the Well," by that magnetic New York conductor, Richard Hageman, were, perhaps, the best-liked numbers of the evening, all of which were magnificently sung, showing to particular advantage her fine voice and pronounced dramatic feeling. Schubert and Brahms were also present with English works. It is true at times a little more distinct enunciation could have prevailed, but the rare intelligence, admirable technique, and splendid enthusiasm of the singer placed her on a high plane. Mrs. Fahey was obliged to give several encores at the conclusion of the programme, the audience seemingly loath to leave, and the gracious singer, beautifully gowned, was the recipient of many handsome bouquets.

Mrs. A. J. Gibson was at the piano, and again throughout the evening accompanied delightfully. Such unusual musicianship and sympathetic understanding are rarely found, as are possessed by Mrs. Gibson, and her support in the operatic airs and in the Cadman and Hageman songs were superb examples of her skill. Altogether it was a most enjoyable evening of song, which will be long remembered by those present, many of whom, no doubt, will follow their favorite in the art she has chosen to fields afar.

NEXT WEEK AT DOMINION.

"The Right of Way" in motion picture form, an adaptation of the famous novel by Sir Gilbert Parker, in which Screen Classics, Inc. presents the magnificent and versatile star, Bert Lytell, will be shown at the Dominion Theatre, beginning Monday.

As those who have read the book—and it is estimated by Harper & Bros., the publishers, that they number well into six figures—will recall, this is a stirring, picturesque and unusual story of Canadian life in Montreal and again on the fringe of the woods. The action revolves chiefly about the character of Charley Steele, called, for his dash and manner by his friends and enemies, both of which were numerous, "Beauty" Steele. The famous courtroom scene in which, after clearing a man of the charge of murder, Steele snaps at him, "out of my sight, you're as guilty as hell," opens the drama; and this same striking unexpectedness, this suddenness and almost stunning surprise is repeated in the various incidents which go to make up the novel which won for Gilbert Parker the title Sir Gilbert Parker. The production has been done with all the finish characteristic of Screen Classics, Inc. pictures which are distributed exclusively by Metro.

"The Right of Way" promises to be one of the real screen events of the season.

Johnnie Cooke, character actor now engaged with Edith Roberts in the Universal feature, "Alias Miss Dodd," was in a hurry to get home last evening and boarded a car without removing the white make-up from his hands, face and hair. The car was crowded and he sat next to a colored laborer.

"Whar you wukkin'?" asked the dinky. "At 'Universal City,'" answered Cooke good naturedly. "What they payin'?" was the next question.

"Hundred and fifty," replied Johnnie.

"That ain't much," observed the colored man, "that's on'y five a day." "A hundred and fifty a week," corrected Cooke.

The other looked at him incredulously. "Go long, man; they ain't no plasterer gittin' sich money as that."

A visitor on Harry Franklin's set at Universal City yesterday saw a number of extras dancing in a cafe scene in Edith Roberts' picture, "Alias Miss Dodd." They would walk around in a circle, falling into a fix trot as they approached within range of the camera, and resuming their walk as soon as they left the radius of the lens.

"What were you doing that for?" inquired a feminine visitor of one of the bored extras when the scene had been finished. "For seven and a half a day," replied the other as he wearily sought a seat.

The Last Corn

When you end your corn with Blue-jay, it will be the last corn you let grow. You will know how to stop the pain. And how to quickly and completely end all corns.

There are millions who use Blue-jay now, and they never let a corn remain.

© B & B 1919

The new-day way
Blue-jay is the new-day way, the scientific method.

It was perfected in a laboratory world-famed for its surgical dressings. It is supplanting the many treatments which are harsh and inefficient. It has made paring as ridiculous as it is unsafe, for paring doesn't end corns.

Do this tonight:
Apply to a corn a Blue-jay plaster or liquid Blue-jay—whichever you prefer.
Mark how the pain stops. Then wait a little and the corn will loosen and come out.

What that corn does all corns will do. Some 20 million corns a year are ended in this way.

Don't suffer corns. Don't have your feet disfigured. They can be ended almost as easily as a dirt-spot on your face. They are just as incurable.

Don't forget this. It means too much to you.

Ask your druggist for Blue-jay.

WONDERFUL SIGHTS AT MONDAY'S PAGEANT

Parade Will Present Gorgeous Spectacle With Wealth of Historical Meaning

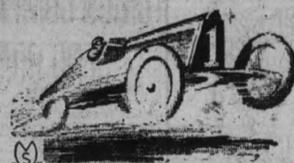

The pageant of the 250th anniversary of the foundation of the Hudson's Bay Company will be seen here on Monday next will form without question one of the most gorgeous displays ever witnessed in this city. Costumes of the period will be worn in the parade. Indians from all sections of the province participating, while floats indicative of all phases of the fur trading days in the Northwest will be faithfully carried out.

The pageant in Vancouver is said to have lined the street with a multitude of 75,000 people who waited in delight during the passing of the entire procession. The parade will be led by the Hudson's Bay Company exhibits, and will be ably supported by the public and all bodies in the district, forming north on Douglas Street, at 10.30 Monday morning.

The route to be followed is as under: Commencing at the new establishment of the Hudson's Bay Company on Douglas Street, south along Douglas to Fort Street, East along Fort to Vancouver, north along Vancouver to Yates Street, west along Yates to Government street, south along Government to the Parliament Buildings, where the pageant will be reviewed by the Lieutenant-Governor and Sir Robert Kindersley and party; returning from Parliament Buildings along Menzies south to Superior, east along Superior to Douglas Street, north along Douglas to Broughton Street, where the foot parties will disband, the vehicular and mounted sections continuing to the place of formation at the Hudson's Bay Company's store.

The list of floats is as follows:
Chief of Police, mounted city police, two heralds, six mounted heralds, four mounted cavaliers, Prince Rupert, four mounted cavaliers; float, company coat of arms; Lieutenant-Governor and Sir Robert Kindersley, mounted police escort, Kindersley party, twenty bandmen,

Street Car Service.
It is pointed out by the B. C. Electric Railway Company that the Hudson's Bay Company's pageant on May 24 will follow some of the streets over which the street cars operate, and, because of this, some delay may be occasioned in the street car service.

On account of this it advises all who contemplate coming in to town by street car to view the pageant to start from their homes in plenty of time.

While every endeavor will be made to keep the car service normal, it will be readily understood that a certain amount of delay, often is unavoidable whenever parades take place over the down-town sections of the streets.

Song and Dance—Minuet "Rendezvous"..... Mrs. Layritz and Master Hubert Raven and Miss Marie Fisher.
Violin Solo—"Chanson Triste"..... Mr. Sprague
And another Selection as an Encore.
Dramatic Sketch—"Dearest Mamma"
Characters:
Harry Clinton, represented by Mr. T. Hall; Nettie Croker, represented by Mr. G. Jones; Uncle Browner, represented by Mr. B. Watkins; Jones, represented by Miss Rives; Edith Clinton, represented by Mrs. Layritz; Mrs. Breezley Fussell, represented by Mrs. Watkins; Mrs. Honeywood, represented by Miss A. Jones.

After the presentation of the sketch F. G. Quick, as auctioneer, presided over the sale of the baskets, each containing supper for two and the name of the lady with whom the refreshment was to be eaten. There was keen competition for the possession of the baskets and their sale added considerably to the proceeds of the evening, which were for the benefit of St. Michael's parish.

A hearty vote of thanks was passed to Mrs. Layritz and her assistants, and the evening brought to a close with the singing of the National Anthem.

ENTERTAINMENT IS GREATLY APPRECIATED AT ROYAL OAK HALL

On Wednesday evening, in the Royal Oak Hall, a most successful entertainment was held under the direction of Mrs. Layritz, with the invaluable assistance of Mrs. Watkins. Much skill and untiring expenditure of time and energy had marked the preparation for the occasion by Mrs. Layritz and her willing and able band of helpers. The audience, representative of the southern part of the municipality of Saanich, by their liberal applause of the several items on the programme, manifested their appreciation of all that had been prepared for their enjoyment.

Under the chairmanship of the Rev. C. R. Littler, vicar of St. Michael's, the following programme was presented:
Pianoforte Solo..... Mrs. Watkins
Song—"Break o' Day"..... Miss Barr
Song (in response to hearty encore) "Calling You Home to Me"

HUDSON'S BAY FILMS IMMENSE ATTRACTION

Tickets All Too Few to Satisfy Numbers Wishing to View Display

Strongly reminiscent of the sugar queues that formed on the streets of London during the scarcity of that commodity during the war the "run" on Kent's music store yesterday morning for reserved tickets to the Hudson's Bay Company's display films at the Royal Victoria was phenomenal in the history of the city.

Queues formed early in the morning and all during the period the tickets lasted queues of people lined

that section of Government Street between the store and Fort Street. Some 8,800 tickets were given out altogether, the distribution commencing at nine o'clock and lasting until about two-thirty, when the last ticket was disposed of, a considerable number being dispersed disappointedly.

It is thought that the large number of people who wished to attend the display and could not secure tickets will induce the Hudson's Bay Company to prolong the wonderful films for another two or three days. General disappointment was expressed by many yesterday afternoon when they learned that they could not secure admission.

A colored man knocked at Mrs. Brown's door and asked for a job. "What's your name?" asked Mrs. Brown, for she liked the look of the fellow.

"Ma name's Poe, ma'am," he answered.

"Poe, ah?" asked Mrs. Brown. "I suppose some of your family once worked for the great Edgar Allan Poe, didn't they?"

The colored man's eyes bulged. "Why, ma'am," he said, "Ah am Edgar Allan Poe!"

Middle Aged Women

Women should take warning from such symptoms as heat flashes, shortness of breath, excessive nervousness, irritability, and the blues—which indicate the approach of the inevitable "Change" that comes to all women nearing middle age. We have published volumes of proof that Lydia E. Pinkham's Vegetable Compound is the greatest aid women can have during this trying period.

Read About These Two Women!
Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Gordon, 225 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."—Mrs. FRANK HANSON, 1316 South Orchard Street, Urbana, Ill.

LANKA

Ceylon's Finest

We offer, in Lanka Tea, a new blend of Ceylon tea, grown in the hill gardens of Ceylon. The British possessions can produce nothing better or more perfectly suited to British taste.

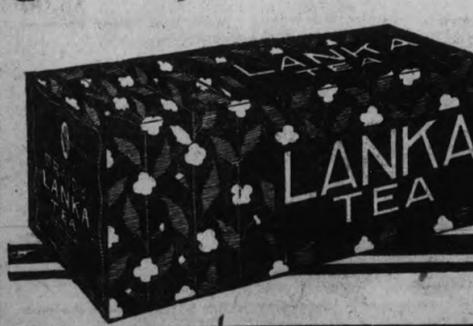

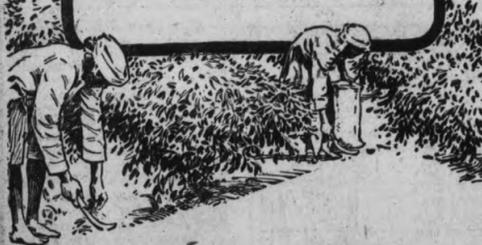

Blended with consummate skill, the flavor of Lanka is superb. Your first cup is a revelation which will win you forever. The rich, sparkling color, the enticing aroma and flavor, proclaim the super-fine quality of this wonderful tea.

Better still, you may enjoy Lanka quality without paying a premium for the pleasure. Imported direct, the saving in freight charges and duty allows us to offer it at the popular price of 75 cents a pound.

You want tea like Lanka. You will enjoy its captivating aroma, appreciate its rich, sparkling color.

Order from your grocer today who has a stock of Lanka. Leading dealers everywhere welcomed the opportunity to supply their customers with Ceylon's finest—the best value the world produces.

UNION COMPANY TO SEND BOAT NORTH

An attempt to break the back of the shipping strike will be made at Vancouver to-night when it is proposed to dispatch the Union Steamship Company's steamer Venture from the mainland port for the Skeena. Up to the present time the Union Steamship Company has refused to make any concessions to the strikers, preferring to tie its ships up.

If the Union Steamship Company succeeds in putting some of its boats in commission the strikers will have to admit defeat, as that is the only company affected that has been forced to suspend its services owing to the labor dispute with the deckhands and firemen.

The Grand Trunk Pacific has maintained a weekly service by the steamship Prince George operating between Vancouver and Stewart via Prince Rupert and Anyox.

Plans are also said to be under way for the early resumption of the steamship Prince Rupert. Apart from the withdrawal of the coal burning ships Princess Beatrice and Princess Ena, the C. P. R. has not been affected in the least by the strike. All the company's coast boats are running on schedule, and the crews appear to be content with the provisions of the new agreement reached with the company. The fight at Vancouver now hinges chiefly upon recognition of the union.

The strike was called at the beginning of the month, and at the present time there is nothing to indicate that the steamships will recede from the stand that has been taken.

PALE, ANAEMIC WOMEN NEED BETTER BLOOD

Vinol Will Enrich the Blood and Create Strength

Physicians Recommend It and Druggists Guarantee It

How many women do you know who are perfectly well, strong and healthy as a woman should be? They may not be sick enough to lie in bed, but they are thin, nervous, run-down, tired and devitalized. Women are so active nowadays, and so much is expected of them that they constantly overdo, and suffer from headaches, backache, nervousness and kindred ills.

Such women need VINOL, our iron-secreting cod liver and hypophosphite tonic. It creates a healthy appetite, aids digestion, makes rich red blood and imparts strength and energy to every nerve, muscle and tissue of the body.

"One woman recently wrote us saying: 'I was all-run-down, thin, pale, and oh, so nervous, but two bottles of VINOL put me on my feet again and made me strong and well. VINOL has done me more good than all other medicines I have ever taken put together.'

VINOL is a wonderful 'strength creator'—try not to try it on the guarantee of your druggist.

RECORD MAIL ON LINER TYNDAREUS

Carrying what is declared to be the largest shipment of mail ever sent out of Seattle to the Orient, in addition to a capacity cargo, the British liner Tyndareus, of the Blue Funnel Line, cleared from the Outer Docks here this forenoon for Yokohama and Hongkong via Manila.

The Tyndareus took out 7,750 bags of postal matter for delivery in the Far East. While here she took aboard some freight and a few steerage passengers.

This voyage the Tyndareus is commanded by Captain Francis, who came out to the coast from England to relieve Captain G. L. Stout, one of the veterans of the Pacific service. Captain Stout turned his ship over to Captain Francis at Seattle on completion of the inbound voyage and then boarded the overland express en route to Liverpool.

The Blue Funnel liner Ision, with Oriental cargo, and carrying about 3,000 Czech-Slovaks from Vladivostok is expected to reach this port about June 3.

VANCOUVER FERRY MASTERS AND MATES WANT MORE WAGES

Unable to arrive at a satisfactory settlement with the West Vancouver authorities regarding the salaries of the masters and mates on the ferries plying out of Vancouver to the North Shore suburb, the Canadian Merchant Service Guild has asked D. Z. Bulger, Dominion Fair Wage Officer, to look into the matter. Notification of this action has been sent to the West Vancouver Council, the latter stating in conclusion, 'should we fail in this, the Guild will endorse any legitimate action that the members see fit to take.' The West Vancouver Council has been asked to pay \$185 for captains and \$150 for mates. The scale for vessels of this size is \$175 and \$135 with room and board. The masters and mates on these ferries receive neither room nor board. They have recently been raised to \$175 and \$140. Then comes the scale for vessels of this size that this wage is not equal to that of a deckhand, who receives \$90 and room and board.

'FRISCO PASSENGERS FROM VICTORIA TO EMBARK AT SEATTLE

Passengers booked by the Admiral liner President for San Francisco and other California ports are advised by the local agents of the company that the southbound call of the President at Victoria has been cancelled for to-morrow owing to the dry-docking of the ship at Seattle.

Passengers from this city will leave here by the C. P. R. afternoon boat to-morrow for Seattle, and will make connections with the President at the Puget Sound port. The C. P. R. boat will reach Seattle shortly after 3 o'clock, and the President will leave Seattle at 10 p.m. for San Francisco direct.

SHIPPING STRIKE IS NEARING CRISIS

Vancouver, May 21.—With the decision of the steamship owners to run their ships in spite of the strike of firemen, stewards and deckhands, the shipping tieup which has been in progress since the beginning of the month is approaching a crisis. During the next few days it will be known whether or not the company will be able to operate without union men as the latter have signified their intention to remain on strike until their demands for a joint conference with the shipowners is granted.

The Union Steamship Company is making every effort to get the steamer Venture away at 9 o'clock to-night. The crew has been rounded out and the vessel was taken on freight to-day. Mails will be carried but the sacks will be restricted to those containing letters. The Chinama is booked to sail on her regular schedule to Powell River at 9 p.m. on Saturday morning. The Capilano is to sail on Monday and will be able to operate without union men as the latter have signified their intention to remain on strike until their demands for a joint conference with the shipowners is granted.

Mr. R. Townsend, business agent for the sailors' union of the Pacific, stated that he had no announcement or comment to make regarding the effort of the companies to run their boats. He stated that the morning had been held during the morning to discuss the situation. The strikers claim that if the ships sail they will go with skeleton crews of strike breakers, as their men are standing solidly together.

Pickets are in evidence along the waterfront in an effort to get a line on the men who are manning the boats.

FRESH AIR FUND PROVES ITS WORTH TO CITY CHILDREN

News of the interest women are taking in the work of providing the city child with at least two weeks of fresh air at the seaside is told by Mrs. Woodhall and Mrs. McLean of Winnipeg, who are making an extended visit to the city and are at

present staying at the Y. W. C. A. Not only are the children given a holiday in camp on the shores of the Lake Winnipeg, but the tired mothers also are treated to a much needed rest.

This Summer it is expected that the number of youngsters taken out to the camp will be larger than on any previous year. Kind hearted and patriotic citizens realize the worth of the fresh air fund to the health of the growing generation, and it is well supported.

The Women's Local Council in Winnipeg is one of the most philanthropic in the Province of Manitoba, Mrs. Woodhall states.

Among its activities is the collection and distribution of clothing among the poorer families. With the present high cost of materials and clothes of any kind this effort is greatly appreciated.

"Yes, we find a great benefit conferred on society generally through the mothers' allowances or pensions," Mrs. Woodhall said while discussing the recent legislation in British Columbia, making provision for a pension scheme for deserted and needy mothers.

"We had some very queer laws in Manitoba for a long time," said the ladies, "until the women began to be busy about it."

"Pa, what is meant by living in a fool's paradise?"

"That, my boy, is living in a flat and fooling yourself into the belief that the landlord isn't going to raise the rent."

GENIAL DIRECTOR PLAYS MANY PARTS

Charles Camshell Has Fitted Himself For Important Post by Adventure and Study

Few professional men in British Columbia are more deservedly popular than Charles Camshell, Director of the Geological Survey for B.C. Therefore the accompanying biographical sketch in the Canadian Mining Institute Journal, will be greatly appreciated by his friends in British Columbia.

Son of Factor

Mr. Camshell's career is one of such variety and interesting adventure that it is impossible to even summarize it within the limits usually assigned to this purpose by the Bulletin. A volume would be better devoted to the purpose. Son of Julian Stewart Camshell, Captain in the British Army and Chief Factor of the Hudson's Bay Company, Charles Camshell was born at Fort Liard, N. W. T., in 1876. At an early age he was sent to school at Winnipeg, journeying across the plains from Edmonton by ox team.

All-Round Athlete

At Winnipeg he received his primary education at St. John's College, and then in due course graduated in science at the University of Manitoba, also the "alma mater of Professor J. C. Gwynn, who slightly preceded him. In college days Camshell was captain of the University football teams, both association and rugby, and seems to have been recognized as an all-round athlete.

Jack of All Trades

On leaving college in 1894, he returned to the Mackenzie River country intending to spend a Winter at his home. But by the trend of circumstances he actually spent the next six years in the region north of latitude 60, ranging between the Coppermine river and the Pacific coast. He describes his occupation during this period as "hunter, trapper, fur trader and dog-driver. It was naturally one of accident and adventure. Amongst other experiences in this return to the "simple-life," he set out on snow-shoes in 1897 to the Klondike, then in his early "hey-day," by way of the Liard and Pelly rivers. This seems to have been one of the few cases in which Camshell ever failed to reach his objective. Game and supplies falling on the head waters of the Pelly, he left on evil days and barely subsisted for three months on rabbits, squirrels, fish-hawk and wolf. Reaching the Cassiar country in the fall of 1898, "dead broke," he, for a time, worked as boatman and cook on a freight scow plying on the Dease river. It is interesting to note that of the three other members of the crew, two were graduates of Cambridge University and the third of Trinity College, Dublin. The captain was an Indian, and the mate, as became his intermediate position, was a halfbreed.

Mail Carrier

Disregarding the social symmetry of these surroundings, with the coming on of Winter Mr. Camshell engaged as a mail carrier on the Stikine river between Wrangell and Telegraph Creek, driving a dog team throughout the Winter of 1898-99. In the Summer of 1899 he again crossed the mountains to the Mackenzie river this time by canoe, and met experiences in traversing the Grand Canyon of the Liard from which few others would have emerged to tell the tale. After spending the following Winter in trapping furs at Fort Wrigley, he joined a Geological Survey party under Dr. J. M. Bell in the Spring. This party explored Great Bear lake and later in the season made a dash to the Coppermine river. On the return journey to Great Bear lake they barely escaped starvation and exhaustion and later being frozen in at Fort Chipewyan covered the remaining 600 miles to Edmonton on snow-shoes.

Completed Studies

Turning from the "wild and woolly" Mr. Camshell then proceeded to Kingston, Ontario, and spent the remainder of the Winter at Queen's University, studying geology and mineralogy under Dr. W. G. Miller and Professor W. Nicol. The Summer of 1901 he spent exploring for the Algoma Central Railway in the Moose River basin and on James Bay. On the way out of this trip, he sampled parts of the present Hollinger mine, obtaining an assay of only \$5.20 per ton, no ground was staked.

After spending the Summer of 1902 in exploring the wood buffalo country between the Liard river and Great Slave lake, for the Geological Survey, Mr. Camshell devoted the following Winter to post-graduate study in geology at Harvard University under the instruction of Professors Wolff, Davis and others. Obtaining appointment as geologist to the Canadian Northern Railway Company he was engaged in explorations in northwestern Ontario and eastern Manitoba, until June 1904, when he was appointed to the permanent staff of the Geological Survey on which he has since accomplished much valuable and well-known work. In 1904 he traversed part of Patricias Institute. His reports on Hedley, Tulameen and other mining districts made during this time are well-known standards. During 1908, he also pursued further post-graduate study at the Massachusetts Institute of Technology, under Professors Daly, Lindgren and their associates.

In 1914, Mr. Camshell was placed in charge of the exploratory work of the Geological Survey and besides directing several parties in the field also made an exploration of the country between Athabaska and Great Slave lakes, which amongst other results made known the Taltson river for the first time.

When it was decided to establish an office of the Geological Survey in British Columbia, Mr. Camshell was

Put the Boys and Girls in **FLEET FOOT**

WHAT you would have to pay for a single pair of children's leather shoes will buy several pairs of Fleet Foot. And Fleet Foot have many other advantages. The rubber soles prevent slipping in play, and promote quietness in the house. These shoes are easy on the feet—and so carefully made of such sturdy materials that they give excellent wear, even with children who are "hard on shoes." Put the boys and girls in Fleet Foot this summer, and save money on their shoes. There are Fleet Foot shoes in sizes for men, women and children.

Fleet Foot Shoes are Dominion Rubber System Products. **DOMINION RUBBER** The Best Shoe Stores Sell Fleet Foot

"Yes, madam, this is the grade of Imperial Polarine specified for your car by the Imperial Polarine Chart of Recommendations, and you will always find Imperial Premier Gasoline of uniform high quality. My customers have learned that operating costs are kept at a minimum through using Imperial Polarine exclusively."

Reduced Operating Costs

IMPERIAL Polarine reduces automobile operating costs in many ways. By providing a piston-to-cylinder seal which assures maximum power. It helps to save friction waste in every moving part, keeps the engine running smoothly and out of the repair shop and minimizes depreciation.

Imperial Polarine prevents friction by coating every wearing surface with a heat and wear-resisting oil film. It seals all the power in the piston chamber. Imperial Polarine gives correct lubrication to every part of your car.

One of the three grades described below is specially suited to your motor. Look for the Imperial Polarine Chart of Recommendations when you buy oil and learn which grade to use.

Imperial Polarine is sold in sealed gallon and four-gallon cans, 12 1/2-gallon steel kegs, steel half-barrels and barrels, by dealers everywhere. There is an appreciable saving in buying half-barrels and barrels.

One Great Essential To a Woman's Health is Her Nerves

Nature intended women to be strong, healthy and happy as the day is long, instead of being sick and fretful. But any woman can be healthy and happy when the whole nervous system is unstrung. The trouble is they pay more attention to their shoes and household duties than they do to their health. Is it any wonder then that they become irritable and nervous, have hot flashes, fainting spells, smooth string and sinking spells, become weak and nervous, and everything in life becomes dark and gloomy.

Milburn's Heart and Nerve Pills are the very remedy that nervous, tired-out, weary women need to restore them to the blessings of good health. Mrs. P. H. Ryan, San Point, N. S., writes: "I have been a great sufferer from nerve troubles. I was so weak and nervous I could not sleep at night any more. My appetite was very poor. I could not walk across the floor without trembling. I had hot flushes and fainting spells. When I was on my second box of Milburn's Heart and Nerve Pills I began to feel better and kept on until I had used six boxes when I felt like a different person. I am never without them in the house and recommend them to all who suffer with their nerves."

Price 50c. a box at all dealers or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

Pat had worked hard and well for some years in the service of his master, and now it struck the latter that it was time to raise the man's pay. "Pat," he said, "Your wages are now fivepence an hour, are they not?" "Yes, sir," said Pat. "Very well," said his employer grandly, "they will henceforth be sixpence." "Stop a minute, sir," said Pat. "When I lose a quarter"—i.e., two hours' work before breakfast—"will I lose a shilling." "Certainly, Pat," was the answer. "Bedad, then," said Pat, with decision, "I don't want your rise at all, at all. Faith, an' I only lose tenpence as it is now!"

NOTICE
CORPORATION OF THE CITY OF VICTORIA. LAND REGISTRY ACT. Section 24. In the Matter of Two Hundred and Twenty-six (226) Block Thirteenth (13), Hillside Extension "A" of the Wards Estate, VICTORIA CITY. Map 196. PROOF having been filed in my office of the loss of Certificate of Title No. 1797-A to the above mentioned land, in the name of The Victoria and Sidney Railway Company and hearing date the 30th day of March, 1920, I hereby give notice of my intention at the expiration of one calendar month from the first publication hereof to issue to the said The Victoria and Sidney Railway Company a fresh Certificate of Title in lieu of such lost Certificate. Any person having any information with reference to such lost Certificate is requested to communicate with the undersigned. Dated at the Land Registry Office, Victoria, B. C., this 19th day of April, 1920. FRANK J. STACPOOLE, Registrar-General of Titles. No. 8469.

GOLF COURSE REFERENDUM
TAKE NOTICE that, pursuant to a Resolution adopted by the Municipal Council of the Corporation on the 7th day of May, 1920, the opinion of those qualified to vote on money by-laws will be taken by ballot, pursuant to the "Victoria City Act, 1920," on Friday, May 28, 1920 between the hours of 9 o'clock in the forenoon and 7 o'clock in the afternoon, on the following question, namely: QUESTION ARE YOU IN FAVOR OF THE Corporation paying from its current revenue any amount up to the sum of \$5,566.66 in contribution to the cost of the 1822 toward the construction, development and equipment of a Municipal Golf Course, such Golf Course to be situated on the Hudson's Bay Company's property in the vicinity of the Uplands, subject to agreement to be entered into by the Corporation with another Municipality, or other Municipality, or other Municipalities, and to be operated by the Corporation and City Links Association? AND FURTHER TAKE NOTICE that the payments herein specified shall not be made until a referendum has been held by the electors of the Corporation authorized to vote on money by-laws and has received a majority vote of the persons that shall vote on such referendum. WM. W. NORTHOTT, Returning Officer. May 15th, 1920. No. 8731

NAVIGABLE WATERS PROTECTION ACT
R. S. C. Chapter 115
The Corporation of the City of Victoria hereby gives notice that it has, under section 7 of the said Act, determined to construct a bridge over the works at Ottawa and in the office of the Registrar-General of Titles for the Land Registry District of the County of Victoria at the City of Victoria, a description of the site and plans for the bridge and Traffic Bridge proposed to be constructed across a portion of Victoria harbor from the foot of Johnson Street to the lands formerly known as the Songhees. AND TAKE NOTICE that after the expiration of one month from the date of the publication of this notice, the Corporation of the City of Victoria will, under Section 7 of the said Act, apply to the Minister of Public Works at his office in the City of Ottawa for approval of the said site and plans and for the construction of the said bridge. Dated at Victoria, British Columbia, this twenty-seventh day of

GOVERNOR STATES COMPANY TO OPEN STORE NEXT YEAR

Hudson's Bay Co.'s Head Makes Statement Regarding Victoria Building

The Hudson's Bay Company will open its big store next Summer, Sir Robert M. Kinderley, Governor of the Company, announced in the course of his address at the Canadian Club luncheon to-day.

Turning from the history of the company to the more immediate past, Sir Robert pointed out that it would not have been fitting and patriotic for the Hudson's Bay interests to devote material and labor so badly needed at the moment to develop their material prosperity, and that alone had kept the company from opening its Victoria store. During the war period, he observed, the company had consecrated its activities to the cause of the Allies—service of which he as Governor was infinitely proud.

A Heavy Expenditure.

"The company is going to repeat its pre-war policy, however," Sir Robert went on. "But to complete the store we must spend three times as much as we already have spent. We could spend less, but we want the store to be worthy of the company and of Victoria. When it will be opened will depend on the rapidity of the contractors. I can promise definitely, however, that unless something unforeseen occurs, it will be open next Summer. Up to now we have not felt justified in opening until we could get value for our shareholder's money. Now we feel we shall at least get better value than before, though conditions in the world are such as to mitigate to a very slight degree against business enterprise."

Beware of Substitutes.

Why do People Take Monkey Glands?

Rejuvenation, both physically and mental, can be acquired, much easier and more pleasantly than by taking or eating the glands from monkeys. The French have invented a medicine, in tablet form, that does away with all other means of rejuvenation. These Tablets are now universally sold throughout Canada, and are known as VITAL Tablets. They supply the necessary Vigor and Youth. There is no need to import chimpanzees from Africa, to take their glands to inject into people. Why go to all this trouble and expense, when VITAL Tablets can now be procured right in your own town, from your drug store? VITAL Tablets taken for a short period, disease of every description, old age with all its aches and pains, will be a thing of the past. Young men and women with their pale faces, thin blood, impure blood, blotches on the skin, run down, worn out, tired people can be placed in a state of good health, with pure blood, strong nerves, a strong stomach, a healthy body, full of youth and vigor. Every Tablet of this new medicine contains the elements to make you feel as nature intended you to feel, no matter what your trouble is, go to your druggist and procure a box of VITAL Tablets. If they do not do you good, go back and get your money. Get on your feet, away with that pale, worn out look on the face. VITAL will bring back the rose of youth. Price fifty cents per box at all drug stores.

SKIN TREATED WITH POSLAM QUICKLY HEALS

Broken-out, aggravated itching skin is a condition demanding the best soothing, healing, antiseptic treatment for its speedy correction. This Poslam supplies, working quickly, readily, reliably, attacking stubborn troubles like eczema with a concentrated healing energy that soon brings improvement. So little does so much and makes short work of pimples, rashes, scabs, scales, clearing inflamed complexion overnight.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.

Urge your skin to become clearer, brighter, better by the daily use of Poslam Soap, medicated with Poslam.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain. How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sores, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. They lay aside all digestive aids and instead get from any druggist a few ounces of Bismarck Magnesia (a tasteless, non-toxic, and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

FINANCIAL NEWS

STOCKS STEADY IN NEW YORK TO-DAY

(By Burdick Brothers, Ltd.)

New York, May 21.—Excitement on the Exchange was not so great to-day and prices were much steadier with very little variation. C. P. R. came back to 114 and prices for the other issues remained practically stationary and no further declines from yesterday occurred. No news of importance to-day.

TO-DAY'S EXCHANGE

(Burdick Brothers, Limited.)
New York, May 21.—Sterling to-day, \$3.82 1/2.
Montreal, May 21.—New York funds to-day, 12 1/2 to 12 3/4 per cent. Bar silver to-day, 99 1/2.

BIG CRASH IN CHICAGO GRAINS

(By Burdick Brothers, Ltd.)
Chicago, May 21.—Heavy deliveries in May corn caused violent liquidation in the grain options here to-day. July corn slid 14 cents while September lost 16 cents. Rye was off 20 cents from the opening. Minneapolis wheat went down 10 to 20 cents. Cash corn also fell. The decline was not quite so drastic, but closing figures showed that they were off 5 to 25 cents. Rye at the close was \$2 off from the opening, while cash cotton dropped 200 points.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, May 21.—There was very little business transacted in the cash markets to-day. The demand was not so active and all offerings were very light. There was nothing doing in oats and spreads dropped half a cent. Barley was in good demand for No. 2 and premiums advanced 2 cents. May oats closed 21 cents lower; barley 22 cents down; flax 21 cents lower; rye 22 cents down for July.

The Road to Independence

Trouble comes to all of us at one time or another.

The man with a snug bank account, is fortified against the "slings and arrows of outrageous fortune".

It is the duty of every man to lay aside something for the inevitable rainy day.

Open a Savings Account today—and take your first step along the road to Independence.

THE MERCHANTS BANK

Head Office: Montreal OF CANADA Established 1864.

Victoria Branch, E. W. McMullen, Manager.
Oak Bay Branch, G. C. Grant, Manager.

CANADA'S VICTORY BONDS

Make these securities exceptionally attractive to purchasers. It is now possible to secure yields as high as 6%, and as they are free of normal income tax, with the exception of the last issue, Victories offer the logical opportunity for the investment of large sums, either for short or long terms, when quick convertibility is absolutely essential.

For the small investor Victories are safest. Owing to the present low prices, there are good possibilities of an increase in principal invested, in addition to the excellent interest return. Consult our Bond Department for latest quotations.

DISCUSS POULTRY AND SMALL STOCK

Rabbits and Chickens Subjects of Combined Saanich Meeting

In the Temperance Hall, Keating, last night, before the combined membership of the South Saanich Women's Institute, and the South Saanich Farmers' Institute, J. R. Terry, Provincial Government Chief Poultry Inspector, and Mrs. E. Cheetham, president of the Victoria Rabbit Breeders' Association, delivered instructive addresses.

Chicken Mortality.
Mr. Terry covered the raising of poultry chiefly from the housing angle, and in his address advocated a higher temperature for brooders and chicken houses than what was apt to prevail. He described much of the mortality amongst little chicks as due to the cold and severity of the season. The effect of blasting upon incubation was another point in the speaker's address, who stated that the greatest percentage of deaths due to this cause was in the first few days of incubation. A "closed season" is now being advocated. Mr. Terry stated that, unless well experienced, nobody should launch out very heavily into the poultry business at the present time, with the price of feed and other necessities so high.

Popularizing Rabbit Meat.
Mrs. E. Cheetham in an interesting address on rabbits, spoke on the difficulty of inducing people other than Old Country people to eat rabbit meat. The difficulty could be overcome, she stated, by the addition of bay leaves to the pie. Mrs. Cheetham as applied to rabbits, which she claimed were severely practical from an economic standpoint.

The speaker advocated Flemish Giants, Belgian Hares, and New Zealand Reds as the three breeds most adapted to this climate. Both speakers were received with close attention and accorded a hearty vote of thanks.

HAVE PROPOSALS FOR INCREASED PENSIONS

British Campaigners who have seen service in years gone by have favorably received the suggestion that their war service during 1914 to 1918 should be added to their former service so that their pensions can be assessed accordingly.

This question and other pension matters were taken up by the British Campaigners' Association meeting last night and will be placed before the Pensions Commissioner. The Deputy Minister of Militia informed the Association that he is considering the proposal that pensions of all pensioners over age but accepted during the last war should be increased. A committee of five is to seek ways of getting closer co-operation with other ex-service bodies.

Col. C. P. de Salls, past secretary, was welcomed back. These new members were admitted: Lieut. Alan G. Horsfield, 1st West Riding Brigade, R. F. A.; Sergt.-Major E. W. Maynard, 75th Regiment, C. E. F.; R. J. Williamson, Royal Naval Reserve. W. C. Winkel presided.

PUPILS SUBMIT SKETCHES FOR THE SAANICH DISPLAY

Much interest was caused at last night's meeting of the Saanich Council when the designs of two Royal Oak school pupils for a float, to represent the municipality on May 24, were laid before them. These were the sketches submitted, one, being distinctly reminiscent of the early days, featured feathered Indians, the other had as its central ideas "a few of the Saanich nurses" and "children advertising the overall movement." Jimmy Perry suggested the latter, and was awarded first prize of \$5, the second award of \$3 going to Ethel Bull.

An Impressive Reminder.
The entry which Saanich is preparing is an ambitious scheme, illustrating the early days of the settlement, when oxen were farm motive power, and the average farm home was a humble log shack.

VICTORIA DAY PLANS.

Port Alberni—The programme for the Victoria Day celebration, May 24, in Recreation Park, Port Alberni, is now in circulation, and the number and variety of contests promised is arousing a lot of interest among athletes and the public generally.

The baseball game between Balnachie and the port, with both teams at full strength, is looked forward to by some as the feature of the day, while others believe that the tug-of-war competition will take first place in the interest of the spectators.

The ladies of the hospital auxiliary, under whose auspices the sports are being held, will conduct refreshment and entertainment booths on the grounds. The programme will be commenced at 1 p. m.
